

HUERTA SHOWS NO INDICATION THAT HE WILL COMPLY WITH THE AMERICAN DEMANDS FOR HIS RESIGNATION

Those Professing to Know Say He Intends to Continue as President

TO ORGANIZE CONGRESS

It is Also Stated That Dictator Will Defy Washington Even to the Point of War

SECURES BRITISH CAPITAL

BULLETIN.

MEXICO CITY, Nov. 9.—Provisional President Huerta at midnight last night issued a formal statement to the diplomats stating that it is now foreseen that the recent elections are null on account of too few precincts having participated in the voting and that therefore when congress convenes it will naturally annul the elections.

President Huerta explains that the program then will be to call new elections, he meantime continuing his program of pacification.

The statement to the diplomats was given to the press for publication at 12:30 o'clock this morning. No reference is made in the statement to the recent representations by the United States but by many people here it is taken as an answer. The statement recites at length the efforts President Huerta has made to establish peace and place his successor in the presidential chair by free and fair elections.

MEXICO CITY, Nov. 8.—General Huerta has shown no indication that he will comply with the American demands for his resignation. On the contrary those who profess to have his confidence say his program includes the continued occupancy of the presidency until some time late in 1914 and that he intends to carry out his plan or organizing the new congress and defying Washington even to the point of war.

It is not forgotten, however, that the unexpected in Mexican politics is never surprising and as evidence of this fact every hour brings a new rumor regarding Huerta. One persistent report was that he had turned the government over to the foreign minister Senor Moseno and had gone to Vera Cruz. Another was that he had committed suicide. That Huerta has begun to break with certain members of his latest cabinet is indicated by the reported resignation of General Blanquet the minister of war. There is some basis for believing the United States has served on President Huerta a supplementary notice that his political career be brought to a close by Monday night. It is reported that John Lind, President Wilson's representative was the medium employed by Washington. Mr. Lind and the Mexican officials deny this but the rumor originated in the national palace. Those who insist that General Huerta will resist all overtures, say he admits financial weakness but is convinced that from time to time he can get enough money to keep up a dogged if intermittent campaign against the rebels.

According to these informants, General Huerta does not expect to bring about pacification for many months, but until it is accomplished he will not resign. They add that he is still determined that the new congress must meet and he expects it to annul the recent election leaving him in the provisional presidency until new elections are held at his call. That the new Mexican congress must not meet is a point insisted upon by the United States since it is believed that one of the first acts of that body would be to legalize certain concessions that are not considered desirable. The British minister Sir Lionel Carden, conferred again today with Mr. Lind. It was learned that their ideas regarding the solution of the situation are still far apart.

Provisional President Huerta, it was learned in authoritative circles here today, has secured sufficient British capital to operate the Mexican government at least until the end of the present month. The funds are said to have been secured through the efforts of Lord Cowdray, head of the Pearson syndicate. The financial situation here changed slightly for the better today. Some banks are putting out silver. Among the callers received by John Lind, President Wilson's personal representative in Mexico were the Bishop of Myro and General Fernandez Gonzalo, one of the oldest generals in the Mexican army who recently retired.

Administration Still Hopeful. Washington, Nov. 8.—Notwithstanding President Huerta would refuse to resign administration officials stated tonight that his elimination would be accomplished "in one way or another." They decided that every opportunity would be given him to retire peaceably and that drastic steps would be avoided if possible. The chief development of the day was a

call sent by President Wilson for members of the senate foreign relations committee, Republicans as well as Democrats. He had Senators Stone and Swanson with him for an hour and expects to discuss the subject individually with other members within the next two or three days. He is in constant communication with Senator Bacon, chairman of the committee who early in the day had a long conference with Secretary Bryan.

Has Been Change in Purpose. The Georgia senator said tonight that while he was not a liberty to discuss his talk with Mr. Bryan in detail, he could state that there had been no change in the fixed purpose of the United States to have Huerta eliminated from the situation and that it would be done though every effort would be made to avert extreme measures. In the view of many officials who anticipate a flat rejection by Huerta of the American demands only two courses are open to the United States—either to impose the situation directly or to throw its moral support with the constitutionalists in their fight to obtain possession of the government in Mexico City. That there is a strong disposition to adopt the latter course was evident in many quarters today. Officials in the confidence of President Wilson said that there was absolutely no alliance between the Washington government and the constitutionalists the sympathies of this government would incline toward the constitutionalists movement. The discussion they said had not progressed to the point where recognition of the belligerency of the constitutionalists was being considered.

Lifting the embargo on arms, however, is the method by which many senators believe the situation can best be met and this is being urged with renewed vigor upon the president by Secretary Bryan. It is believed that before the Washington government takes any step in understanding through informal and unofficial channels may be reached as to the exact purpose of the constitutionalists so that any act of sympathy toward their cause might be predicted on assurances or a very definite character. To this end it is reported that agents of the United States government are gathering information along the border of the strength of the constitutionalists and the program which they have mapped out.

That no final word had come from Huerta as to the American demands presented by Charge O'Shaughnessy was admitted tonight by state department officials. The next step, it is believed, will not be decided until Huerta's reply is actually received. In the meantime the president expects to keep members of the congress closely informed. He did not take his customary Saturday afternoon automobile ride but remained at the white house absorbed in the dispatches from Mexico.

Besides Senators Stone and Swanson, Speaker Clark saw the president late today but declined to say whether he had talked about Mexico.

The president expects to forgo his usual Sunday custom of banishing official business for the day and will see some of the members of the senate foreign relations committee. The president is said to be impressing upon all those who discuss the subject with him that it is the duty of the United States to see to it that the arbitrary assumption of power by Huerta followed by his dictatorship should not be permitted to ripen into a precedent to Latin America. Absolutely no official comment was forthcoming tonight on the dispatches from Mexico City, that Huerta would be aided English financial interest in meeting immediate obligations.

Information of the part the English financial interests are said to have played in supporting the Huerta government has been in possession of the United States government in the confidence of President Wilson declared that he has this phase of the administration in mind when he made his Mobile speech attacking the influence of material interests of foreign nations in the political affairs of Central and South American republics.

Criticism Administration. Cleveland, O., Nov. 8.—Henry Lane Wilson, whose resignation as ambassador to Mexico was accepted by President Wilson, criticized the administration's Mexican policy in an address before the Union club here tonight.

"I believe that had Huerta been accorded diplomatic courtesies from this country, peace and order in Mexico would have been brought nearer than they have been brought," the ambassador said. "No one will say that Huerta is an ideal head for any government, yet under the conditions that obtain in Mexico it is justifiable that with him the internationally recognized head of the government the purposes of peace and order and the protection of the property and lives of Americans would have been conserved far better than they have been."

ROOSEVELT INTERVENES; GIRLS ARE HOMESAFE

HAD SIGNED CONTRACT TO APPEAR IN RIO JANEIRO

Mrs. Roosevelt Advises Them To Return Home—Are Arrested For Violation of Contract—Note to Minister Results in Dismissal of Case.

NEW YORK, Nov. 8.—Because Colonel Theodore Roosevelt and Mrs. Roosevelt intervened in their behalf, two young American girls who sailed from New York last month for Rio Janeiro are back here safe and sound tonight instead of being stranded in the Brazilian city or possibly being lured to a den in Rio by means of a contract they had signed under misapprehension before sailing. The young women are Miss Gladys Waddell, 17 years old, of New York and Miss Joan Shore, 19 of Chicago. They were fellow passengers with the Roosevelts on the Steamer Vanduyck as the colonel started from New York on his long South American jaunt. Mrs. Roosevelt learned that they were under contract to appear in an amusement place in Rio Janeiro. After inquiries about the place, Mrs. Roosevelt advised the young women to return from Rio on the next ship after the arrival of the Vanduyck. A subscription was taken up under the supervision of the Roosevelts, and money furnished the women to pay their way home. When the Vanduyck reached Rio on October 20, it was decided to transfer Miss Waddell and Miss Shore to the Vestris, then preparing to sail north, without their landing on Brazilian soil. The Brazilian police, however, stopped them, and they were taken ashore and the two women were hailed before a magistrate, accused of violating a contract. Fortunately, however, Mrs. Roosevelt had given Miss Waddell a note to the American minister and official intervention by the consul in person which the note brought about, ultimately resulted in a dismissal of the case and the girls speedily took passage on the Vestris, on which they arrived here tonight.

REPORTER BUYS LIST OF QUESTIONS ON DENTISTRY

Are Said to Be Part of Examination Set for Monday by State Board of Dental Examiners.

Chicago, Nov. 8.—A list of questions said to be part of an examination set for Monday by the state board of dental examiners, was purchased by a reporter from Joseph Darlings. He paid \$50 for them.

In a statement after his arrest Darlings asserted that he obtained the questions from Dr. P. C. Diamond who was recently appointed a member of the state board of examiners.

The reporter went to Dr. Diamond's office where he told the member of the board that he expected to take the examination Monday. The reporter said he had failed to pass examination in Iowa and was told that "Darling might give him a steer in the right direction."

The reporter later met Darlings in the elevator in the building. They went to a saloon where Darlings said, "I can do everything except sign your license for you." The reporter paid Darlings \$15 in marked bills. Later he paid him \$35 more. Darlings handed over a list of questions on anatomy and extraction and oral surgery. Darlings promised to get questions on chemistry and metalurgy later.

Darlings offered to introduce the reporter to a "fellow who is going to be monitor at the examination." Darlings told the reporter if he got "stuck" at the examination the monitor would help him out.

THREE SMALL CHILDREN ARE BURNED TO DEATH IN HOME

While Parents Were Away Fire Destroyed Residence, With Children Locked In It.

Caruthersville, Mo., Nov. 8.—Three small children of Mr. and Mrs. George Buck were burned to death here this afternoon when fire destroyed the Buck home. The parents were away in the city and the children had been locked in. The oldest child was six years old.

When the parents reached the burning house neighbors had to restrain them from running into the building. A boy discovered the fire. He heard the screams of the children and tried to get into the house but failed. He then ran for help but when he returned the flames had gained such headway that none could enter.

BELLELEVILLE, Ill., Nov. 8.—Frederick Keck, a member of lower house of the Illinois legislature, died at his home near here today of heart disease.

announced testimony of American investors in Mexico would not be needed in solving the Mexican problem and added: "Where testimony should be regarded if not of those who have interest in Mexico?" Mr. Wilson concluded with the inquiry: "By what course of reasoning can there be an insistence from Washington that Anglo-Saxon system government can be established in Mexico where 90 per cent of the population cannot read or write?" "American intervention means war,"

DEMOCRATS ISSUE CALL FOR CAUCUS

Senate Currency Committee Deadlocked In Its Consideration of Administration Bill

WRANGLES WITHOUT RESULT

Half a Dozen Votes Are Taken On Various Propositions Fixing Number of Regional Reserve Banks at from Four to Eight

CAUCUS WILL DISCUSS MEASURE

WASHINGTON, Nov. 8.—With the senate banking and currency committee deadlocked in its consideration of the administration bill a call was issued tonight for a caucus of senate Democrats next Wednesday to discuss the measure. The call was issued by Senator Swanson of Virginia who circulated the petition for a call on the authority from Senator Kern who is out of the city. Senator Swanson decided upon this course following an adjournment of the committee for the day and after he had visited the white house and talked with President Wilson.

Wrangles All Day. All day long the committee wrangled without result over the question of fixing the number of regional banks to administer the new currency system. Half a dozen votes were taken on various propositions fixing the number at from four to eight. Each vote disclosed a tie, Senator Hitchcock voting with the five Republicans against the six remaining Democrats. In vain the administration senators declared that the President was determined to have at least eight regional banks. The tie could not be broken and Senator Shafroth forced an adjournment. When the committee had adjourned Democratic members went into session. The four administration supporters argued with Senators Hitchcock, Reed and O'Gorman, although the latter two had swung into line with the administration on several propositions. An attempt was made to secure a compromise by which the administration supporters would yield on other points in order to insure eight regional banks. But the administration senators were not willing to yield enough and the effort failed. At this point Senator Swanson and his conference called came into the situation. The petition for the call had been circulated and had been signed by twenty-three Democratic senators. Just as soon as the committee broke up Senator Swanson, left the capitol and hurried to the white house.

He talked briefly with the president and on his return to the capitol sought Chairman Owen and Senators Pomerene, Hollis and Shafroth the administration committeemen. They signed the petition and immediately issued the call. No comment was made at the white house on the developments in the situation, but Senator Swanson gave out a statement in which he said in part:

Senator Swanson's Statement. "The country has given the Democratic party power under promise to enact reform legislation included in which is banking and currency. It should not and cannot shirk its responsibility. Being responsible for the character of the legislation the time has arrived for the Democratic senators to hold a conference and consider their united obligations and duties to the country. We owe it to the country and our party not to permit this opportunity to pass to obtain much needed banking and currency reform. The conference is called for this purpose to hasten and facilitate such legislation. It is not intended to reflect on anyone and is called with the earnest hope and expectation that it will result in giving to the country soon a banking and currency bill beneficial to all our varied interests and for which the Democratic party will unflinchingly stand and point to in the future as an act of proud achievement."

Republican members of the committee tonight announced the intention of writing a minority currency bill based on a public owned, publicly controlled system of regional banks, of which there should be no more than four. In many respects the bill would follow the Glass administration bill. The Republicans declare they will take the fight on the bill to the floor of the senate.

Affirmative action in the committee today consisted on the completion of the reserve section of the bill as it applies to country banks. The house bill provided that country banks must keep twelve per cent reserve, five per cent in the regional bank and seven per cent in their own vaults. An amendment was adopted almost unanimously, by which the country banks might keep the seven per cent in their own or in the regional banks at their option.

The administration Democrats in the committee are at work on a report which probably will be laid before the conference next Wednesday.

THE TEMPERATURES.

The temperatures for Saturday, according to G. H. Hall, weather observer at Alexander, were, maximum 52 and minimum 35. A trace of rain was recorded.

BRADY STARTS "AUDIT" OF MANY STATE BOARDS

PROMISES TO BE ONE OF THE MOST SEARCHING EVER HELD IN ILLINOIS

Firm of Expert Accountants Has Been Engaged—Task Expected to Consume at Least Two Months—Working in Full Accord With Dunne.

SPRINGFIELD, Ill., Nov. 8.—State Auditor James J. Brady has started an investigation, or, as he terms it, an "audit" of many of the state boards and departments, which promises to be one of the most searching and far reaching probes of its kind ever conducted in Illinois.

A firm of expert accountants had been employed and eight experts are already engaged in the task which is expected to continue at least two months.

Auditor Brady is empowered under the law to make investigation and independent of the executive department, he is working in full accord with Governor Dunne and has advised the governor of the nature of the investigation or "audit" and his plans for conducting same.

The following is a list of the departments which the auditor will have investigated: State auditor, secretary of state, superintendent of public instruction, adjutant general, insurance department, charities commission, state library, board of livestock commissioners, board of veterinary examiners, railroad and ware house commission, chief inspector of grain, deputy inspectors of grain, commissioners of labor, chief inspectors of private employment agencies, board of examiners of architects, barber's board, game and fish commission, board of health, board of pharmacy, board of dental examiners, miners examining board, nurses' examining board, state etomologist, fire marshal, food commissioner, state normal university, Northern Illinois Normal, Eastern Illinois Normal, Western Illinois Normal, Southern Illinois Normal, Southern Illinois penitentiary at Joliet, Southern Illinois penitentiary at Chester, state reformatory at Pontiac.

MINER AND 3 GUARDS ARE KILLED IN BATTLE

PARTY RETURNING TO OAKVIEW MINE SHOT FROM AMBUSH

Miner Surrounded on Return From Dentists—Rescued From Strikers Later Killed—Governor Orders Arrests.

LAVETA, Colo., Nov. 8.—One miner and three guards from the Oakview mine near here were killed late today when they were ambushed while returning to the mine. The miner had come to Laveta this afternoon to visit a dentist. When he started to return to the mine he was surrounded by strikers but managed to send a telephone appeal for aid. Three guards came to Laveta, rescued the miner and started for the mine in an automobile. The party was attacked and in the exchange of shots the occupants of the automobile were killed.

Ordered To Round Up Men.

Denver, Nov. 8.—Adjutant General Chase was ordered today by Governor E. M. Ammons to round up and imprison under national guard the men who early today ambushed and killed a non-union miner in the Augilar district and those that late today ambushed and killed three mine guards and a non-union miner near Laveta.

The governor declared that if he could find a way to try the men under martial law he would order General Chase to proceed with their trial.

The governor said he did not believe General Chase would have much difficulty locating the men.

MRS. TROUT HEADS SUFFRAGE ASSOCIATION

SESSIONS AT PEORIA CLOSE WITH ADOPTION OF MANY RESOLUTIONS

Most Important Urges Gov. Dunne to Call a Convention For Purpose of Considering New Constitution Which Will Fully Enfranchise Women.

PEORIA, Nov. 8.—The first annual session of the Illinois Equal Suffrage association closed here this afternoon with an election of officers and the adoption of many resolutions, the most important of which urges Governor Dunne to call a convention for the purpose of considering a new constitution for the state of Illinois which will fully enfranchise women.

The officers elected are:

Mrs. Grace Wilbur Trout, president. Jane Addams, first vice-president. Mrs. H. M. Brown, Peoria, second vice-president. Mrs. James W. Morrison, recording secretary. Mrs. Edward L. Stewart, corresponding secretary. Miss Jennie Johnson, treasurer. Mrs. J. W. McGraw, auditor. Board of directors—Mrs. Sherman Booth, Annie Wallace Hunt, Miss Margaret Dobyne, Mrs. Mary C. Bourland, Pontiac; Mrs. Charles H. Webster, Galesburg; Carrie Alexander, Bahrnberg, Belleville; Mrs. Medd McCordick, Mrs. H. G. Newton and Mrs. Moses Purvine.

The morning session extended far into the afternoon. When the name of Mrs. Grace Wilbur Trout was put in nomination for re-election there was a tremendous demonstration. Women marched up and down the hall cheering and singing. Some broke down and wept while the nominee herself shed tears at her post on the platform.

Nine-tenths of the delegates left Peoria early in the evening for their homes.

Act Will Increase Cost. Chicago, Nov. 8.—The woman's suffrage act will add \$200,000 to the cost of elections in Chicago next year, according to the estimate today of the board of election commissioners. The new law requiring registration, canvass and revision before each primary will demand the expenditure of \$100,000 more.

The suffrage act will increase election expenses generally throughout the state, the commissioners say. In their budget they state that the number of precincts in this city will be increased 50 per cent and 150,000 more ballot boxes will be needed.

FOUR ARE KILLED WHEN TRAIN HITS CARRYALL

Occupants Were on a "Straw Ride" and Evidently Did Not See Approach of Train.

Syracuse, N. Y., Nov. 8.—Four people were killed and four injured when a carryall carrying twenty persons was struck by a Delaware-Lackawanna & Western train at Jamesville, six miles south of here, tonight. The occupants of the carryall were on a "straw ride."

Evidently they did not see the approach of the train and the vehicle was squarely on the tracks when it was struck. The carry-all was thrown 20 feet into a ditch at the end of the tracks. The dead are William Crowder, driver of the carry-all, Minnie Price, 17; Kathleen Springer, 18, and an unidentified man.

GOVERNOR FELKER ORDERS H. K. THAW'S EXTRADITION

Decision Designates Sheriff Hornbeck To Take Fugitive Back To New York—Evelyn Thaw Grieved.

Concord, N. H., Nov. 8.—Gov. Samuel P. Felker today ordered the extradition of Harry K. Thaw to New York in response to requisition papers charging him with the crime of conspiracy.

Governor Felker refused to comment on his action beyond referring to the written decision. The decision designates Sheriff Hornbeck of Dutchess county to take Thaw back to New York. Sheriff Hornbeck was named in requisition papers filed by William T. Jerome.

Evelyn Thaw Deeply Grieved.

Montreal, Nov. 8.—Evelyn Nesbit Thaw who is in this city seemed genuinely upset when told that Governor Felker of New Hampshire today had granted New York authorities extradition application in the case of her husband, Harry K. Thaw.

"I am deeply grieved," she said, "I am sure that Harry will be terribly disappointed. If Jerome would only stop prosecuting him and allow his family to take care of him he would be all right."

Mrs. Thaw would not deny that there was a possibility of her joining her husband if he won his fight for liberty.

PINDELL SAYS HE DID NOT GET LETTER

Misunderstanding Threatens to Develop Regarding Published Epistle from Lewis

SENATOR MAKES STATEMENT

Letter Offered Pindell Russian Post With Proviso That He Hold the Portfolio Only One Year

EDITOR IS CERTIFIED BY RUSSIA

CHICAGO, Nov. 8.—A misunderstanding threatened to develop today between Senator Lewis and Henry M. Pindell of Peoria, Ill., in connection with the publication of a letter said to have been from Senator Lewis offering Mr. Pindell the post of ambassador to Russia with the proviso that he hold the portfolio only one year.

Mr. Pindell, who was certified to Washington by Russia today as persona grata, declared at his Peoria office today that the published letter had never been received by him. Senator Lewis, while not denying that he had written the letter to Mr. Pindell, said, with his usual courtesy: "If Mr. Pindell says that he did not receive the letter he must be right. I have with me no copies of my correspondence with him."

In the letter which was published, Senator Lewis saluted the prospective ambassador as "Dear Pindell" and offered him the post with the provision twice referred to that he relinquish it October 1, 1914. "If you accept this position it must be with the understanding that you resign on the first of October, 1914," the letter read. This was the sentence that attracted most attention when it was published.

"It was my understanding when I wrote to Mr. Pindell," Senator Lewis said, "that he should take the Russian post to fill the unexpired term of Curtis Guild, who had resigned. I think that would have been about a year. After the unexpired term of Mr. Guild had been completed by Mr. Pindell, the question of his remaining in St. Petersburg would have been for the president to decide."

"Since writing I believe Mr. Pindell has seen President Wilson and Mr. Bryan and they have talked the affair over."

"The letter published this morning was absolutely new to me," Mr. Pindell declared today. "I never received it, never saw it, never had it in my desk, and never knew anything about it."

"As for this letter alleged to have come from Senator Lewis, it never came to me."

Mr. Pindell is editor of the Peoria Journal and is reputed to be a millionaire. His appointment was expected to go to the senate Monday for confirmation.

NEGRO HELD AT BAY BY POSSE WOUNDS THREE OFFICERS

Two Hundred Men Attempt to Arrest Him For Shooting His Wife—Is Captured and Taken to Salem

Centralla, Ill., Nov. 8.—Sam Sherman, a negro, today held at bay a posse of two hundred men who attempted to arrest him for shooting his wife. Three officers were wounded. The negro finally was locked up. The members of the posse wounded by Sherman are: Reed, shot in arm. Guy Livesay, shot in right leg. Sheriff Watts, shot in face.

The house from which Sherman held off his would-be captors was riddled with bullets. His wife was wounded fatally.

Sherman was taken to Salem, Ill., tonight, that he might be safe from mob violence.

MILLIKIN WINS OVER ILLINOIS

TAKES LOCALS INTO CAMP BY SCORE OF 7 TO 0.

Decatur Team Made Only Score of Contest when Wilson Circled Illinois' Right End For Touchdown in the Second Quarter—Championship Title Complicated.

Illinois college lost a hard fought gridiron contest to Millikin university Saturday afternoon by a score of 7 to 0. The game was hard fought throughout and especially during the last half when Illinois made a strong bid to overcome the lead of their opponents. Millikin did not see it that way and so redoubled their efforts. Millikin's score came in the second quarter after they had worked the oval down to the goal line and then perished pushing. Wilson shot around Illinois' right end for a touchdown on the fifty little quarterback of the visitors kicking goal. Illinois came near scoring in the last quarter and had the ball within twelve or fifteen yards of goal when a forward pass was used and intercepted. While the Illinois men played well in the first half they did not display much of a fighting spirit, as was manifest in the latter part of the game. Then, too, Millikin found some weak spots in Illinois' line and used the same for some good gains, time and time again. Illinois seemed slow in breaking up the visitors' play and Millikin's fast back field got away with the ball in quick fashion. Mitchell, Stewart, Wilson and Frisbee were especially in the game for Illinois and Mitchell's long runs were features of the game. To a man on the side line it looked as though Millikin had "got wise" to Illinois' plays in some manner because in every shift play Millikin would call; the play and double their defense in the position where the play was going, making it almost impossible for Illinois to get away with their numerous fake plays. The same was true relative to the end plays, especially when Frisbee was to receive the ball, for they knew that if he had a half clean field it meant a touchdown. Lee, right halfback, was easily the star of the visitors and a great ground gainer, his line plunges and end runs being spectacular.

By Millikin winning from Illinois the championship title is more complex than ever. Wesleyan is yet to meet Millikin and Illinois has on their schedule a game against Williams and Vashit. It looks as though the end of the season will be run to find the best all round team. Saturday was an ideal day for a game and a good crowd was present. The college band furnished music and the rooting was well done.

First Half.
Illinois kicked off to Millikin and the ball went down on the 30 yard line. Millikin kicked to Stewart who returned the punt 8 yards. Stewart returned the kick. Millikin after two attempts to make gains punted. Stewart again returning the ball 15 yards and Mitchell added a similar distance. Coach Ashmore sent in Delaney to relieve Dickerson. Illinois was penalized on the next play for holding. After halfback Lee of Millikin gained 6 yards and McDonald four. Quarterback Wilson got away with the ball around Illinois' left end for a spectacular run of 50 yards. Lee made a couple of more good gains when the visitors tried the forward pass and failed. Illinois held them for downs on the 5 yard line. Stewart by two successive plays advanced the ball 10 yards and Alford and Wilson added a similar distance. Stewart got away for another good gain when time was called for the first quarter.

Illinois' at the opening of the second quarter made a ten yard gain by a forward pass and when the pass was attempted the second time Delaney intercepted it cleverly and got away for a 15 yard run. Lee was handed the ball for two successive times, gaining 8 yards the first effort and nearly ten yards the second. Wilson attempted a kick from the 27 yard line but the ball went wild. Illinois came back strong when Mitchell circled Millikin's left end for a 25 yard gain. Illinois was penalized for holding. A forward pass was made to Frisbee but Illinois was again penalized 15 yards for holding. This gave Millikin a big hunch after securing the ball on a fumble by an Illinois player. By a succession of end runs and line bucks Millikin worked the ball down to the eight yard line. Another line buck brought the ball a foot from goal but Millikin was penalized for pushing. Quarterback Wilson made a pretty run around Illinois' right end of 15 yards for a touch down. The visitors kicked out and Wilson put the ball between the posts, making the score 7 to 0 in favor of Millikin.

Illinois failed to Millikin and the oval dropped out of the Millikin man's hand. Spruit fell on it on the 20 yard line. Stewart was sent through for a 5 yard gain. Illinois tried a forward pass which was intercepted. Halfback Lee gave a good exhibition of dodging, carrying the ball 7 yards. Wilson kicked when time was called for the quarter.

Second Half of Game.
Millikin kicked off to Illinois. Stewart returning the kick a short distance. Wilson got away with the ball for a 23 yard gain. Millikin held Illinois for downs and after Lee was sent through the line for a substantial gain Millikin resorted to a kick. Illinois at this point took quite a brace and Wilson, Stewart and Frisbee all carried the ball for good gains. Coach Ashmore left tackle and sent in Stokes, and Coach Harmon relieved Stewart at quarter by Gary. Millikin intercepted a forward pass of Illinois on their 25 yard line. Hempel made a gain of 5 yards. Millikin being penalized for pushing.

Millikin kicked out of bounds. Illinois tried forward pass, Lee nabbing the ball. Millikin kicked to Stewart. The ball was advanced for good gains by Mitchell and Alford when the whistle blew for the quarter.

Illinois whipped up considerable in the last quarter. Illinois tried a couple of forward passes which failed. Delaney intercepting the second one. Lee plunged through center for a 10 yard gain, and followed up the play by another similar gain. Wilson attempted a goal kick from the 35 yard line but failed. Gary was sent around Millikin's left end for a good gain and Illinois received a penalty for roughing it. By a succession of end runs and line plunges, helped by a forward pass to Russell Illinois worked the ball down to the 15 yard line. Here coach took Darrah, right guard out and sent in Atehison. After an attempt to make gains Illinois called for a forward pass, which Millikin intercepted. Quarterback Wilson booted the ball out of range and aided by the wind the ball went to the 50 yard line. Millikin attempted another kick by using Wilson but failed and with the next two plays by Illinois the time was up.

FORMER RESIDENT OF CITY DIES AT HOME IN MISSOURI.

Cyrus Woods Found Dead at Macon, Mo.—Heart Disease Is Supposedly Cause of Sudden Demise.

A telegram received Saturday by Mrs. William B. Rogers, announced the sudden death of her husband, Cyrus Woods of Macon, Mo. Mr. Woods was found dead in his bed about 2 o'clock Saturday morning and heart disease is accounted for the cause of his death. Mr. Woods was for a long time a resident of Jacksonville and was warmly esteemed by many people here. For a number of years he has lived in Macon, A. J. Woods of Waverly is a brother of the deceased and accompanied by his daughters, Mrs. George Kimber of Waverly and Mrs. James Seymour of Franklin, he left last night for Macon to attend the funeral. Bert Woods of Franklin also expected to go. Mr. Arbuckle of Auburn is a sister of the deceased and J. W. Woods of this city is one of the nephews.

ATTEND EQUAL SUFFRAGE CONVENTION AT PEORIA.

Mrs. J. H. Danskin and Mrs. A. L. Adams were Delegates From Jacksonville—Old Time Political Methods Used in Convention Management.

Mrs. J. H. Danskin and Mrs. A. L. Adams have returned from Peoria where they went as delegates to the State Equal Suffrage convention. Mrs. Danskin said last night in talking of the convention that so far as the election was concerned that the steam roller was used as effective as that ever employed by a national political convention. There were one hundred and fifty women present and everyone who went there expecting to see a company of suffragettes dressed as the cartoonist depicts them, was sorely disappointed for the delegates were notably well dressed. Mrs. Danskin made a brief speech Friday in which she related what the women had done in the Jacksonville election and the delegates seemed to be especially interested in the showing made here. About the most important action taken was the resolution calling upon the legislature to arrange for a convention to consider revision of the state constitution.

Where Responsibility Rules

Patrons of our store will tell you that the reliability and dependability of our stocks and service entitle us to a share of your business too. Long experience in both retail and wholesale departments have given us an intimate knowledge of what the public really wants.

That is the reason that we are today specializing in the handling of certain goods in bulk. These goods are of the highest grade and quality but by handling them according to our clean and sanitary methods in bulk we are able to give our customers perfect satisfaction and at the same time save them money. So we offer in bulk, Rolled Oats, Macaroni, Rice, Beans, Pop Corn, Tapioca, Corn Meal, Coffee, Tea, Spices, Extracts and still other goods in bulk, but guaranteed strictly pure. They come too you less the expensive packing in cartons and cans—the money saved is yours.

The Finest Nuts

We have since establishing our store carried THE VERY FINEST NUTS that have come to this market. There is a vast difference in nuts and it is our policy to offer our customers THE VERY HIGHEST QUALITY. They have especially fine flavor and sweetness and the shells are thin and crisp. This season we are duplicating the accomplishments of former years and if you will take a look in our east window you will see the very finest nuts that have been grown for this year's trade.

ALMONDS, PECANS, BLACK WALNUTS, BRAZILIANS, HICKORY NUTS, they are all there and if you see them then you'll know that the nuts shipped us have certainly been selected from vast stocks. They have not come to us mixed with stones and bark or in damp sacks. These nuts show not only that they are the best of their kind but that they have been carefully and scientifically handled, in the way to put them into the best possible market condition.

Special Bargain in Peas

We are offering AN EXTRA BARGAIN in Trio brand peas. The figure is LOWER THAN USUALLY OFFERED BY BIG JOBBERS to the trade. We have only a limited supply. If you are interested COME IN AND ASK THE PRICE and you will certainly buy.

Little Dorritt

A splendid Two Reel Feature.
This famous Broadway star has never before acted in motion pictures. She brings to the motion picture world all the splendid ability which has attached to her stage career. "Little Dorritt" given renown by Charles Dickens is a story of vast interest and you can see it Monday with all possible realism.

Tuesday, Nov. 12
Hard Cash

Edison—2 reel feature.
A splendid pictureization of Charles Read's Famous Novel. Three generations have found deep satisfaction in the human understanding of this undying story. The events caused by fourteen thousand pounds in hard cash involve an old man's suffering, an untrustworthy banker's greed and unnatural treatment of his son and the final restitution that brings happiness.

B. C. 3500

The first prescription was written on Egyptian stone 3500 B. C., and is now in the Metropolitan Museum, N. Y. City. The first prescription dispensed from our files was put up by Robert Hockenhull, senior, in 1842, and can be seen in our east side store window, together with others of same and subsequent years, down to the present time; nearly 50,000 of them in all.

These 50,000 prescriptions represent the accumulation of 71 years' continuous business, and when you take into consideration that in the last 25 or 30 years all the physicians have been dispensing practically all their medicines from their offices, it shows a record of work that we are justly proud of, both for our predecessors as well as ourselves.

This is the day and age of specializing in most all the arts and sciences. We specialize in that of dispensing physicians' prescriptions, and call ourselves the Prescription Specialists. Our intimate knowledge of drugs enables us to personally direct the compounding of them; the supervision of the filling of your prescriptions assures you that no error will be committed in the selection of the proper and purest drugs. Absolute excellence is our standard. We will not tolerate substitution. Our label is a guarantee of quality and we give most careful attention to every article which leaves our stores.

In order to carry out our Specialty we have opened (as you probably know), a prescription room in the Ayers Building, No. 201, for the exclusive compounding of physicians' prescriptions and family recipes. Hours 1:30 to 11:30 morning; 2 to 5 afternoon. We cordially invite you to call in and see our Prescription room. East and West Side Stores of Coover & Shreve can supply all your drug wants. We guarantee your perfect satisfaction, and are ready to promptly deliver any telephone order or call for prescription and return it to you after it is prepared.

Deputy Sheriff Morrow of Greene county was here Saturday to arrest William Sevier on charge of a confidence game. It appears that Sevier gave a check for the purchase of some cats when he had no funds and that when he was threatened with arrest, gave another check and forged his brother's name. He is now charged with the latter misdemeanor.

BOARD OF EDUCATION HELD SPECIAL MEETING.

Bid of Jacksonville Plumbing Company on Eighth Grade Building Accepted—Contractor Authorized to Make Part of Foundation Deeper.

The board of education had a call-meeting yesterday with all members present except the mayor. The object of the meeting was two fold. It was voted to accept the bid of the Jacksonville Plumbing & Heating company for the heating of the new building.

When the contractor for the new building was digging for the foundation men came across several cisterns and cellars that he had to take into account according to the specifications but he encountered one obstacle which wasn't down in the books. On the south side of the proposed excavation at the bottom the earth was found to be insecure seeming much like filled in earth and the board ordered the contractor to proceed deep enough to get a suitable foundation and before any dirt is placed around the newly laid wall the architect is instructed to measure the brick work carefully and report the extra amount to the board of education.

Wonderful Blood Remedy That Works in the Tissues

The Very Latest Theory About How and Why the Blood is Disordered.

**S. S. S. Means Pure Blood Which Insures Long Life and Health.**

The great experts in Chemistry and Physiology now declare what has all along been contended by the Swift Laboratory that the source of blood disorders find lodgment in the interstices of the tissues.

And herein is where S. S. S. goes to work rapidly, effectively and with wonderfully noticeable results.

This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the nutritive elements of wheat, root, beef, and fats and the sugars that make up our daily ration.

As a matter of fact there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutriment.

That is why it regenerates the blood supply; why it has such a tremendous influence in overcoming eczema, rash, pimples, and all skin afflictions.

And in regenerating the tissues S. S. S. has a rapid and positive antidotal effect upon all those irritating influences that cause rheumatism, sore throat, weak eyes, loss of weight, thin pale cheeks, and that weariness of muscle and nerve that is generally experienced, by all sufferers with poisoned blood.

Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright, and energetic, but you will be the picture of new life.

S. S. S. is prepared only in the laboratory of the Swift Specific Co., 201 Swift Bldg., Atlanta, Ga. Who maintain a very efficient Medical Department, where all who have any blood disorder of a stubborn nature may write freely for advice.

S. S. S. is sold everywhere by all drug stores.

Beware of all attempts to sell you something "Just as good." Insist upon S. S. S.

Richard Yates' Preference.

The appointment of former Governor Richard Yates as a member of the railroad and warehouse commission, carrying with it the certain suggestion that he will in January be named minority member of the new utilities commission will be approved generally by Republicans throughout the state. No Republican could be chosen by Governor Dunne for this important position who would receive unanimous endorsement of the party, but the former governor can probably come as near meeting that as anyone who could have been named. During several campaigns Governor Yates has actively canvassed the whole state of Illinois. He has been in every county of the state repeatedly and has frequently visited more than one city or town in each of the counties. So it is likely that he has a larger down-state acquaintance and a larger personal following than any other Illinois politician. Governor Yates' experience in the executive chair and his knowledge of the affairs of the state in general should specially qualify him for the position to which he is named. The public utility commission will have the vast powers of the railroad and warehouse commission; it will have also still larger responsibilities contemplated by the public utilities act. The board will actually have control of all railroads, railroad properties, freight rates, etc., and will direct vast operations of electric, gas and street railway interests in Illinois. Billions and billions of dollars worth of property will be under their direct control. The interests of the people in railroad and utility matters will be very largely in their hands and so it is essential that Governor Dunne should choose for positions on his board not only men of broad knowledge and experience, but men of the highest integrity as well.

Parents Can Aid Teachers.

In a recent letter to parents of public school children Supt. Gore explains something about the new report cards which he is using. While the parents will be interested in the explanation of the cards given, the most important message to them is in the closing sentences of the letter, where the superintendent suggests that after all reports cards are very unsatisfactory and that personal contact between parents, teachers and the general school management is far more desirable. The schools of Jacksonville are well managed and are doing excellent work, but there can be no question but that the highest efficiency in education comes only when there is a close sympathy between the parents of the children and the teaching force. The superintendent is wise in urging parents to visit the schools, for without a doubt, the closer contact of the parents with the school will serve to smooth out any such little troubles as are bound to occur in school management and will make for still better things in years to come.

Dividing Party Strength.

When one considers he vote for the three candidates for commissioner in the recent Morgan county election the query naturally arises as to how long the Republican party will continue to try to run two political organizations. What is true of Morgan county is true of a great many others. The vote cast for Mr. Megginson with that cast for Mr. Mortimer was greater by several hundred than that for Mr. Coulter, the successful candidate. Allowing for some defections from both the Republican and Progressive candidates, in case there had been but two candidates, and still there was a good margin to work on. Mr. Megginson and Mr. Mortimer are men of such similar qualifications, of such like standing in the community, that to the unprejudiced voter, just from a personal standpoint, there was little or no difference between them in the matter of their fitness for the position they were seeking. And just as these two men largely represent like interests, so the Republicans and Progressives have no vital differences. They believe in the same essential doctrines and principles and with a little "get together" spirit can arrive at an agreement as to how those common ends are to be accomplished. If Republicans

and Progressives are to reach an understanding and present a common front to the "enemy" the agreement proposition can best start in the separate counties. When members of the parties in the counties begin to forget the past and to line up for the future then it will soon be an easy matter to get the state organized in the right way. Charity is not the only thing that "begins at home."

The Chamber of Commerce Helps.
The Jacksonville Chamber of Commerce can not claim to have brought a large number of industries to this city. But those people who look upon this matter as the sole purpose of a business men's organization err sadly. Such an organization is an essential thing in civic life. If it furnished nothing but a common meeting ground where business men and citizens might meet and discuss common interests and exchange views, the organization would be well worth while. But the Chamber of Commerce does far more than that in Jacksonville. The credit interest of retail merchants receives careful attention, which is in itself a very important matter. There are many things which are constantly referred to the organization for attention which would otherwise draw heavily upon the time of individuals. The matter of securing conventions of entertaining visitors, of emphasizing the home attractions, of hammering away on the desirability of buying at home all form part of the Chamber of Commerce work. A Chamber of Commerce should be at once a protective association and an advancement association for its members. No doubt the Jacksonville Chamber has not by any means reached its highest usefulness, but that goal will only be attained as the business men keep a united front and determine to take an individual interest in promoting common interests. With an active business men's organization, one in which every member realized a personal responsibility and was willing to share in the work, many things as yet unattempted could be accomplished. The greatest good will come, too, when organized business men and city officials have a common meeting ground and work together for the best things.

Recall Stories Unfounded.

During recent days there have been various rumors afloat about the recall of various members of the city council. One story has been to the effect that efforts were to be directed against one or two members of the council, while another story indicated that the proposed recall included the entire five council members. Nobody seems to know who is starting the alleged recalls and stories vary as to the motives behind the supposed movements. Thus far investigation has failed to disclose any facts about any such petitions and it is doubtful if there are any. The most commonly accepted belief has been that any recall matter started had something to do with the recent election. Just what the election would have to do with a recall movement does not appear, for it is pretty well understood that none of the city officials took any active part in it. It is not a difficult matter to find fault with an administration and no doubt flaws can be found in the present one, possibly many of them. The complaint, however, which seems to be the most well founded is that so little is being done in the matter of public improvement. Jacksonville needs more pavements and some of the pavements already down are so badly worn that repairs are very sorely needed. Work of this kind should be done every year and while improvement, at the time it is made, may result in some seeming hardship to property owners, the physical welfare and prosperity of the city is at stake. In the vast majority of instances money invested in sidewalks and street improvements is good investment from the private as well as the public viewpoint.

Illuminating the Light Question.

Such discussions as that held at the Congregational church Friday night, when Commissioner Brennan, Supt. W. B. Miser of the Jacksonville Railway & Light Co., and H. J. Rodgers, a citizen with considerable experience in commercial lighting, took part, will result in a great deal of good in the community. What the people really want is "light" on the light question in Jacksonville. There is not one citizen in a thousand in Jacksonville who can intelligently read an electric light bill, to say nothing of discussing lighting systems, watts and kilowatts. Just as an electric light bill looks to the consumer like the hieroglyphics on a Chinese laundry ticket or a bundle of fire crackers, just so is the question of public lighting puzzling.

Tuesday night the directors of the Chamber of Commerce will listen to an opinion on the local situation written by J. H. Bryant, assistant professor in the department of electricity at the University of Illinois. This report will be of interest because Mr. Bryant has made a study of these matters and presumably knows a good deal about what he is talking and writing. City officials and citizens generally should be invited to hear this report read and discussed. Too much publicity cannot be given to this or any other document which discusses the light situation. The street illumination is getting less week by week and when one considers that whatever is done about street lighting will take many months to accomplish, then the need for prompt and serious study of the matter is apparent. Just get the public mind made up as to the best lighting plan for Jacksonville and there will be no trouble about getting the proposition through.

Strong For Municipal Ownership.

The figures presented by Commissioner Brennan about the business done and the methods used in Hamilton's light plant are of great interest and like facts from other cities would be of value. No one familiar with the time and study Commissioner Brennan is giving to the light-

ing problem can question that he is striving to accomplish what he considers best for the city. He believes in municipal ownership and in the feasibility of a city plant doing commercial lighting. Pointing to an article in an electrical journal telling about the discovery of a new lamp which promises to give even better light than the Mazda lamp and with less current, Mr. Brennan said yesterday: "Why with the advances which are being constantly made in electric lighting, the cutting of costs, it would be criminal for a city to tie up with a utility company for a long term of years."

Electricity Prices Decline.

For some cause or other there does now seem to be a great movement of prices downward for electric lighting. Perhaps the utility concerns are putting in improved machinery and are producing current at less cost. Perhaps the great dam at Keokuk is having an effect in the Mississippi valley. It may be that news laws have brought some results along this line. In Springfield the utility company has just granted lower prices. In Chicago the lighting companies have lowered the scale of prices in a way which will benefit ninety-three per cent of their customers. In Galesburg the McKinley company has just taken a slice off the prices and other cities might be named in the list where concessions have been granted.

The Right Brand of Patriotism.

If one looks back through the files of a newspaper for six months the headlines flash the message every little while through that long period that the situation in Mexico is critical. And true it is that the critical condition there has stretched out through a marvelously long time and that has been due largely to the forbearance of Uncle Sam. It would have been an easy thing for the United States to get into armed warfare with Mexico months ago. Some papers, both Republican and Democratic, are now attacking the administration policy for not being more aggressive. Recent dispatches indicate that the time is getting close enough when the government may be forced to step into the imbroglio in a very forceful way. The thinking public will hope that day may be distant and will approve the conservative way the administration has moved along. Yet if war should come the people will with one accord rise to the support of our Uncle Samuel. The American people have the controlled sort of patriotism, deep seated, intensely loyal, ready for service to the last ditch when the real need arises.

ALL IN READINESS FOR TRIAL OF HENRY SPENCER

Man Who Killed Tango Teacher Will Be Tried in Du Page County Court—Confessions of Prisoner Have Attracted Country Wide Attention.

Wheaton, Ill., Nov. 8.—All preliminary arrangements have been completed for the opening, next Monday, before Judge Mazzini Slusser of the Du Page county court, of the trial of Henry Spencer, charged with the murder of Mrs. Mildred Allison Rexroat, a tango teacher. Owing to the atrocity of the crime and murder of Mrs. Rexroat and several others, who has confessed not only the murder of Mrs. Rexroat, but several other murders committed in various parts of this state during the past year or more, is attracting country-wide attention and promises to be extremely sensational.

The murder for which Spencer is to be tried, was committed on the evening of Friday, September 26, of this year. Mrs. Mildred Allison Rexroat, a teacher of tango dancing, was lured to a dark spot near Wayne, Ill., murdered by being choked and shot through the head and then placed on the tracks of the Elgin, Joliet & Eastern railroad, where a train mangled the body. The crime was discovered by the engineer of the train which ran over the body of the woman and he promptly notified the authorities. The sheriff of Du Page county swore in a hundred deputy sheriffs, who searched the whole county for the murderer.

The body of the victim was crushed beyond recognition, but by means of a bracelet and her bag, containing her card and some papers, the victim was identified as Mrs. Rexroat. It was also ascertained that the woman had been robbed of her money and of the valuable jewelry she wore. It was learned that the victim was known as Mrs. Allison, but that she had been divorced from Mr. Allison, her first husband, and had recently married E. A. Rexroat, farmer near Macomb, Ill. She was supposed to make her living as a dancing teacher.

The police followed several clues and made several arrests, but the arrested persons were able to prove alibis and not until some time during the first week of October did the clues succeed in arresting Henry Spencer, who is said to be a Bohemian named Shortna, following a clue furnished by some friends of the murdered woman. It appears that Mrs. Rexroat had an appointment with a man named Spencer for the evening of September 26. She was to accompany him to Wayne to teach a tango class which he said he had formed there. The woman and Spencer were seen by several persons near Wayne who furnished a good description of the man.

After his arrest Spencer was taken to the Cook county jail and there he made a full confession of the murder of Mrs. Rexroat, giving all the details of the case and a graphic description of the murder itself. He also claimed that he had committed a number of other murders and robberies in various sections of the state and created a tremendous sensation by giving detailed accounts of the numerous crimes which he claimed to have committed. A careful investigation by the police authorities established the fact that many of Spencer's alleged confessions were fiction, as there was no record of any crimes like those which he described, that had been committed at the times and localities designated by him. Later Spencer recalled his alleged confessions, but the authorities are of the opinion that Spencer, although some of the alleged crimes were probably only figments of a drug crazed imagination,

The Wife of New York's Young Mayor Is Student and Athlete.

Mrs. John Purroy Mitchel, wife of the newly elected young mayor of New York, is a literary student and an athletic "outdoors woman" as well. She swims, handles a boat and uses a rifle with the skill of a man trained in those activities. Mrs. Mitchel is also a suffragist and is a member of an association organized to fight tuberculosis and to aid its victims. Mr. Mitchel is the youngest mayor New York has ever had. He is thirty-four years old.

really did commit some of the other crimes which he confessed.

When Spencer was arraigned before Judge Slusser of the Du Page county court he was not represented by a lawyer. He refused to plead not guilty and demanded that he be tried on the spot and sentenced to death. He refused to employ counsel and became greatly excited when Judge Slusser appointed Lawrence P. Conover of Hinsdale and John W. Leedle of West Chicago to represent the prisoner. The judge declared himself ready to hear the case without a jury then and there if Spencer would plead guilty, but this the prisoner refused, saying that he fully realized the motive of the court, which he believed to be to sentence the prisoner to life imprisonment instead of pronouncing the death sentence upon him. He insisted upon a jury trial and a special venire was

summoned for next Monday. Since then Spencer has changed his mind and has employed a lawyer, Anton Zeman, who will make every effort to win the case for Spencer. He will, it is believed, rely upon the plea of insanity and will attempt to show that Spencer came from a family tainted with insanity and had suffered a serious injury to his brain while a child.

NEWS FORECAST FOR THE COMING WEEK.

Washington, Nov. 8.—Monday is the day set for handing down the arbitration board's award in the wage dispute between the eastern railroads and their trainmen and conductors.

On the same day the representatives of the 45,000 employees on western railroads will make public their demands for better wages and working conditions. The demands will affect 56 railroads operating from Chicago west to the Pacific coast, and increases will be asked for engineers, firemen, switchmen, conductors and brakemen.

A federal grand jury will meet in Indianapolis Tuesday to begin an investigation of the latest phases of the dynamite conspiracy as brought out by the confession of George E. Davis, alias George O'Donnell, who was arrested a short time ago in New York. In his confession Davis involved a number of officials and other members of the International Association of Structural and Bridge Iron Workers, many of whom were convicted and sentenced to prison a year ago in an effort to break up the conspiracy that had resulted in the destruction by dynamite of many so-called non-union buildings and bridges throughout the country.

Sir Rickman Godlee, president of the British Royal College of Surgeons and Honorary Surgeon in Ordinary to the King, will present the degrees of the newly constituted American College of Surgeons, at its first convocation to be held in Chicago Wednesday.

The winter social season in New York will be formally inaugurated Saturday with the opening of the annual exhibition of the National Horse Show association, in Madison Square Garden.

A notable wedding of the week will take place in New York Saturday, when Miss Mary Lodge McKee, daughter of Mr. and Mrs. James R. McKee, and granddaughter of the late President Benjamin Harrison, will be married to Kurt Reisinger, son of Mr. and Mrs. Hugo Reisinger and grandson of the late Adolphus Busch of St. Louis.

The leading nations of the world are sending delegates to the international conference which will assemble in London Wednesday to discuss plans for better safe-guarding human life at sea. The conference is an outgrowth of the wreck of the Titanic.

Lady Randolph Churchill, formerly Miss Jennie Jerome of New York, will christen the new British dreadnaught Benbow, which is to be launched at Dalmuir Wednesday.

Monday will see the annual spectacle of Lord Mayor's day in London, when Sir Thomas Van Sittart Bowater will be formally installed as chief magistrate of the city.

The annual banquet of the Canadian club of New York will be held at the Hotel Plaza Tuesday night. As this is the first dinner of the club since the new tariff law came into effect the occasion is expected to be one of unusual interest in view of the distinguished representatives of both countries who have accepted invitations to speak.

The notable gatherings of the week will include the conventions of the American Federation of Labor, in Seattle; the Anti-Saloon League of America, in Columbus, Ohio; the United States Good Roads association, in St. Louis; the National Municipal League of the United States, in Toronto; the American Association for the Study and Prevention of Infant Mortality, in Washington, D. HARVARD SHATTERS AN ANCIENT FOOTBALL TRADITION BY DEFEATING PRINCETON ON HER OWN GROUNDS

BRICKLEY'S SOLITARY GOAL FROM FIELD GIVES CAMBRIDGE MEN THREE SCORES AND GAME

Played On a Field Inches Deep In Mud and as Slippery as Greased Glass Finer Points of Football Were Absolutely Lost --Harvard's Chance Comes In Second Period--Chicago Downs Northwestern 14 to 0.

PRINCETON, N. J., Nov. 8.—Harvard shattered an ancient football tradition here this afternoon by defeating Princeton on her own grounds by a score of 3 to 0. The credit for the victory goes in great part to Charles Brickley, whose solitary goal from the field gave the Cambridge eleven the three scores that decided the game.

Brickley's ability to score via the aerial route solved a football problem for Harvard which the mud and rain would otherwise have baffled. Played on a field inches deep in mud and as slippery as greased glass the finer points of football were absolutely lost and the rival teams wallowed and slid about the gridiron waiting for an error to give them opportunity to score. Harvard's chance came in the second period when during a punting duel Law, who did the kicking for the Tigers, had one of his low drives blocked by Gilman, the Crimson right tackle. The ball rolling backward toward the Princeton goal line was followed by a slepping, scrambling mass of players.

They drove repeatedly for the spheroid which evaded them like a greased pig. When the ball was finally corralled it was a pair of mud covered arms that held it and the doom was sealed. With the ball on Princeton's 12-yard line Harvard tried two line plunges. The Orange and Black forwards held firm and it was evident that if the Crimson was to score it must be by Brickley's educated toe.

Shows Benefit of Long Practice. Never was the benefit of his long period of practice shown to better advantage for despite the short distance that stretched away to the goal bar the conditions were such that a failure would have been entirely excusable. But Brickley did not consider the possibility of failure. Stepping back to the 20-yard line he carefully whipped the mud from his famous propelling boot and settled himself in the mud to await the ball. Back came the sphere through the hands of Soucy. To grasp and drop it to the ground was but the work of a second and almost instantly it was sailing across the Princeton goal bar for the score that sent Harvard home from Princeton with the first victory that the Crimson has achieved in Jungletown in a generation.

Each team tried the forward pass three times. Princeton scored twice of the trio while Harvard made good but once. Baker attempted five field goals, none of which were successful, while Brickley scored one of his three tries.

When the whistle blew and the Harvard crowd realized that its team had won the contest, there was a great cheering in Harvard stands. Hundreds of the Crimson followers ran on to the field and circled the victorious Cambridge team which had promised to give a Harvard cheer before it left the field of battle. Some of the more enthusiastic Harvard rooters carried several of the players from the field while others formed a parade and marched around the gridiron and through the goal posts, cheering and throwing their hats in the air. A brass band was at the head of the line.

The paraders marched out of the grounds and up to the Princeton campus cheering and singing as they proceeded.

Although suffering the pangs of defeat, the Princeton followers did not forget their team in this hour of adversity. The crowd of Princeton students remained in the stands and cheered the Tiger squad and sang Old Nassau. Some of the Tiger followers gathered around their players as they walked off the field and urged them to go in next Saturday and win from their old rival Yale.

Chicago Downs Northwestern. Evanston, Ill., Nov. 8.—Chicago downed Northwestern 14 to 0 in a renewal of their ancient duel today, a squad of substitutes failing for the Maroons in the second half after Stagg's men had made two touchdowns in the first part of the game. Straight football put Norgren in a position to drive through the purple line in the first quarter and a fumble gave DesJardens the chance he needed into a score in the second period. Up to the second half the Maroon team was regular except that Pierce and Gray back field stars were on the side lines and in the last half the midway string men did practically all the work. A dozen forward passes attempted by Northwestern failed to gain.

Purdue Plays in Snow Storm. LaFayette, Nov. 8.—In a game played in a driving snow storm, Purdue defeated the football team of Rose Polytechnic here this afternoon, the final score being 62 to 0.

Rose Poly had the ball in her possession less than one minute during the entire game. Purdue, after piling up 48 points in the first two periods used a number of substitutes in the latter half of the game. The Boiler-makers used only straight football as it was said a number of scouts from the University of Illinois which Purdue plays next Saturday were among the spectators.

Michigan A. C. Takes Up-Hill Game.

Lansing, Mich., Nov. 8.—Outplayed during the first period, the Michigan Agricultural College football eleven rallied and defeated Mount Union 3 to 7 this afternoon. Coach Macklin attempted to keep his star ground gainers, Julian and Blake Miller, out of the game but during the final period, Mount Union's open play became so threatening that he was obliged to call on both men for assistance.

Carlisle Outmatches Johns Hopkins. Baltimore, Md., Nov. 8.—Carlisle's football team outmatched Johns Hopkins in every department of the game at Homewood this afternoon. The final score was 61 to 0.

Dartmouth Defeats U. of Pa.

Philadelphia, Nov. 8.—Dartmouth defeated the University of Pennsylvania on a rain soaked field here today by the score of 34 to 21. It was the first meeting of these two institutions on the gridiron in sixteen years and a great crowd was present despite the rain.

Neither team was able to make consistent gains by straight football and each frequently resorted to forward passes and kicks. Fumbles of the slippery ball and unusual plays were responsible for a majority of the touchdowns.

Pennsylvania's 13 punts averaged more than 44 yards, while Dartmouth's 17 averaged 39 yards each. The superiority of Ghee and Llewellyn in running back kicks, however, gave Dartmouth an advantage in the kicking game. Pennsylvania attempted forward passes 21 times and was successful in eight instances while Dartmouth succeeded seven times in 13 attempts. Both suffered equal in penalties each being set back 15 yards for holding and 15 yards for offside play.

West Triumphs Over East.

Ithaca, N. Y., Nov. 8.—The west triumphed over the east today when Michigan decisively defeated Cornell 17 to 0.

Cornell was outplayed, outweighed and outfought. The long looked for punch was lacking and Cornell was powerless almost continuously before the smashing onslaught of the Wolverines.

Army Runs Away With Albright.

West Point, Nov. 8.—The Army ran up a big score today against Albright, defeating the visitors 77 to 0. Eleven touchdowns, eight goals and a goal from field was the Army's total. The team showed vast improvement over its recent form. Hobbs, Hodgson and McEwen were the stars of the Army's play. The field was wet and the ball hard to handle.

Wisconsin 12; Iowa State 0. Madison, Wis., Nov. 8.—The University of Wisconsin won from Ohio State university here today by a score of 12 to 0.

The Buckeyes, the newest member of the Western conference played gamely against the heavier Badger but were seldom in reach of Wisconsin's goal.

The Badgers two touchdowns were made by straight football. In the last period the visitors finally worked the forward pass in a spectacular manner but none of the attempts was effectual enough to score.

Yale Reverses Form.

New Haven, Conn., Nov. 8.—Showing a complete reversal of form over last Saturday Yale easily defeated Brown on Yale field this afternoon 17 to 0. The score, however, fails to indicate the superiority of the Blue eleven. Twice Yale missed place kicks by slight margins and was twice within striking distance of a touchdown but on each occasion lost the ball on an incomplete forward pass. It was not until the closing moments of the game that Brown had a chance to score. Yale had sent in many substitutes and the Brunonians by a beautiful forward pass that netted thirty yards brought the ball within striking distance. Captain Henry tried a field goal but the ball went wide. Guernsey of Yale made a brilliant attempt at a field goal from the 40-yard line and the ball went so close to the uprights that half the crowd thought he had scored. Yale displayed the best form so far this year.

Williams Wins For Missouri.

Columbia, Mo., Nov. 8.—Quarterback McWilliams' brilliant playing in today's game won for Missouri a place kick from the fifty yard line, spectacular end of sixty yards by the quarterback gave Missouri her only touchdown. In the fourth quarter he dropped the ball over the bar on a place kick from the fifty yard line. Wilson kicked the goal from touchdown. Drake threatened but once getting the ball to the Tiger's five-yard line in the third quarter but could not go over.

Bucknell Scores Against Navy.

Annapolis, Md., Nov. 8.—Although Bucknell's football team did not develop anything like the strength expected against their powerful opponents and suffered a worse defeat this afternoon than Lehigh did last Saturday, they were the first players to score against Navy this season. The final figures were Navy 70;

Bucknell 7. Last year Bucknell defeated Navy 17 to 6.

As a football contest it did not amount to much Bucknell being unable to withstand the hammering of Navy's powerful backs.

The game was witnessed by Mrs. Woodrow Wilson and Miss Eleanor Wilson, who, with a party of Army officers came over from Washington.

Forfeits Game to Marquette.

Chicago, Nov. 8.—With a score of 12 to 6 in favor of Loyola Academy, Referee Waldron today forfeited the game to Marquette Academy of Milwaukee. A forward pass was intercepted by Marquette. The umpire and linesman held that the ball should be returned to the place where it was put in play. The referee ruled that the ball be put in play where the runner was downed. He gave Loyola two minutes to resume play. The altercation continued and he awarded the game to Marquette.

Iowa Outspeeds Indiana.

Iowa City, Ia., Nov. 8.—Iowa outspeeded Indiana today, overwhelming the Hoosiers 60 to 0. A spread play, the plunging of McGinnis, wide end runs by Parsons, who twice swept 50 yards for a touchdown, and the wriggling of Quarterback Gross appeared to daze Indiana. Iowa used many substitutes in the second half, alternating with regulars. The surprise of the game was Iowa's line. Indiana made first down only once in the game. Indiana strengthened late, upsetting Iowa's offense and nearly negotiated a safety when Swisher was thrown on his three yard line at the close of the game.

Indiana outweighted Iowa several pounds to the man but lacked a powerful offense.

Iowa's light, fast backs dodged through broken fields shaking off tacklers or with speedy interference circled ends for long gains. Gross, the midjet quarterback, played a sensational game. He negotiated the first four touchdowns. Iowa gained 440 yards in the first half, Indiana 31.

Haskell Indians, 28; Morningside, 0.

Sioux City, Ia., Nov. 8.—By swift end running, brilliant handling of the forward pass and general aggressiveness in following the ball, the Haskell Indians of Lawrence, Kan., ran up a total of 28 points to none for the Morningside team on Bass field.

Bleachers Collapse; None Killed.

Morgantown, W. Va., Nov. 8.—Near the close of the last quarter of the football game between Washington and Jefferson college and West Virginia university on West Virginia's field here today, the north stand on which 800 persons, including 300 women, were seated, collapsed under the weight, throwing the occupants in a heap. The cadets of West Virginia university untangled the mass. None was hurt seriously, but many suffered cuts and bruises. The game was continued, Washington and Jefferson winning 34 to 0.

FAKED PAINTINGS.

Imitations and Forgeries of the Works of Old Masters.

SHARP TRICKS OF THE TRADE.

Specialists Who Are Real Artists In Showing Antique Effects—The Split Panel Deception and an Ingenious Swindling Scheme That Failed.

In addition to a considerable mass of historical information concerning methods employed in producing pictorial works of art, M. Moreau-Vauthier's "Technique of Painting" presents much new and interesting matter concerning devices of imitation picture faking—"trugage," as the French art world calls it—and systematic, deliberate, skillful forgery that have in recent years rendered extra hazardous the purchase of any picture by a recognized master who has joined the great majority.

Many of these tricks require great skill and knowledge—enough, in all seeming, to enable the forgers to become recognized artists of the first class.

If an old canvas can be found—and there are many thousands in Europe—the production of a Titian or Correggio or Veronese is easy. The worthless picture is painted over or cleared off or the latest fashion—provided with a new canvas face on which a fine forgery has been painted.

Varnish tinted with bitumen gives appearance of age; heuric juice, ashes steeped in water and lampblack are used to imitate the dirt of time. There are specialists in fly stains, clumsy retouching designed to emphasize age by contrast, and in signatures—a select class, these latter, who call themselves monogrammatists.

They know the manner of each great painter, the way he signed his pictures and the place and color used. Sometimes the name is cunningly concealed under a layer of dirt or paint, so that the buyer of this particular "old master" may have the pleasure of discovering it for himself.

The author gives the names of several painters who find a ready road to wealth in multiplying for foreign markets the Bonis, Diazs, Corots, Daubigny and Corbets and the like, without which no home of luxury is deemed complete.

Unfinished studies by famous artists sold after death at some official vendue bear the regular sale stamp, a priceless token of authenticity, wherefore the clever forger makes the dimly suggested picture a finished composition, which carries on its back an indisputable certificate of genuineness.

Still more adroit is the trick played after the Fromentin sale, where one of these art harpies bought the painter's "Arab Falconer," painted on a wooden panel. The panel was sawed through edgewise, giving the forger a genuine Fromentin without the sale stamp and a black panel bearing the sale stamp. Result, two "genuine" Arab Falconers, sold far apart, with no way at hand to disprove the imitation.

Sometimes, it is pointed out, the novelty of the trick employed works its own defeat, as in the case of a Florentine dealer who sold a rare old painting to a French collector. He offered to send it to the buyer's hotel and asked him to write his name and address on the back of the panel in order to remove all doubt. This was done, but then the collector changed his mind and carried the picture off despite the dealer's protestations.

When the traveler got home he took the picture out of its frame to clean it. He found that he had brought away two pictures. The first, which he had bought, concealed a copy on the back of which he had signed his name.

This was almost perfect rascality. If the collector had had the picture sent to his hotel he would have received the copy. If he had protested that it was not the picture he bought he would have been shown his own signature on the back of the panel.

The Italian government prohibits the exportation of native art works except by permission that is very hard to get. But the collectors and the owners of old family pictures find no difficulty in evading this. They order copies, put them in place of the originals and secretly send the latter out of the country. Thus a genuine old Italian master is one of the easiest things to acquire in the realm of high priced art.

Advertising Pays 100 Per Cent. A Kansas man lost a five dollar bill and advertised for it. In a day or two a man appeared in his office, saying that he had seen the advertisement, and handed him the bill. In a few days the Kansas man was going through his "other" clothes and found the original bill which he thought he had lost. Notwithstanding the fact that the events in this story may sound suspicious, the lesson is obvious.—Kansas City Star.

Calm Osculation. "I hear they are passionately in love with each other." "It might pass for passion in Boston. They kiss each other with their eyeglasses on."—Washington Herald.

It Must Be So. Mrs. Knosfall—What do those sailors mean when they speak of the dog watch? Mr. Knosfall—That's part of the crew of an ocean greyhound.—Kansas City Star.

AMES AGGIES OF IOWA WIN ANNUAL CROSS-COUNTRY RUN

Missouri Is Second, Nebraska Third and Kansas Fourth—Northwestern Defeats Chicago University.

Lincoln, Neb., Nov. 8.—Ames Aggies of Iowa won the annual Missouri Valley cross-country run here today, the victory being decisive. Missouri was second, Nebraska third and Kansas fourth. There were only four entries.

Scores by the schools were as follows: Ames, 22; Missouri, 52; Nebraska, 58; Kansas, 78.

Snyder, Ames, was the first man to cross the line. Goetz, Nebraska, second; McWhorter and Brown, both Ames, third and fourth respectively; Terry, Missouri fifth; Horne, Ames, sixth; Fawcett, Missouri, seventh; and Moakstad, Ames, eighth.

Northwestern Wins. Evanston, Ill., Nov. 8.—The annual cross-country run of the University of Chicago and Northwestern today was won by Howard Osborne of Northwestern, who ran the 3 1/2 miles in 17.51.

Lower Mile Record. Stanford University, Cal., Nov. 8.—The Pacific coast record for the mile run was lowered two seconds on Stanford oval today by James Powers of the Boston Athletic association in a paced race. Powers time was four minutes 18.4 seconds. The former record of four minutes 20.4 seconds was held by Clyde of the University of Washington.

Illinois Victorious. Bloomington, Ind., Nov. 8.—Illinois won the annual cross country run today. Mason of Illinois finished first.

RED LETTER NIGHT FOR RING FANS.

New York, Nov. 8.—Seldom has a greater bunch of high class pugilists even been seen in the ring the same night than the aggregation scheduled to engage in contests in various parts of the country, next Monday night. Even with the Ritchie-Cross bout, originally scheduled for that date, centered until later, there is enough left on the calendar to afford the fight fans a wonderful feast of difficulties.

Featherweight Champion, Kilbane is slated for a six-round go with Eddie O'Keefe in Philadelphia. Mike Gibbons and Marty Rowan are down for a ten-round fight at the Wyndford A. C. in Brooklyn, and Willie Beecher and Jimmy Duffy are signed up to go the same distance in Syracuse. Another promising bout is billed for Kenosha, Wis., where Freddie Walsh, the British lightweight champion, is slated to defend his title against Eddie Murphy, the South Boston lightweight.

MORE LIGHT.

Now the saloon question is out of the way the next subject pressing for solution is light. Two methods are before the people, one being strenuously advocated by the members of the city council and involves a bond issue of \$50,000 for installing a lighting plant; the other is to buy light from the Jacksonville Railway & Light company. The company offers to light the streets to the remotest suburbs, a street light at every corner of every block in the city, with boulevard lights around the square and light Nichols park and school and city buildings free; to furnish all lamps, wire and pole the whole city, maintain and keep the whole system in repair, all for the net sum of \$7,500 per year. Mr. Newman says it costs over \$8,000 a year in expense to operate our present light plant, and after we add to it \$50,000 more of machinery and equipment it will certainly cost no less for operating expense. We can by accepting the offer of the company at least quit even in the way of outlay and expenses per year. The offer also provides for 10c electric light and \$1.10 gas to the consumer, the prices being reduced from 13c and \$1.15 respectively. This would leave the city free to develop its water plant by issuing a small amount of bonds, say \$15,000 or \$20,000 to install more wells and pumps and possibly more land. The city has largely made a success of the water business, but many thoughtful citizens have grave doubts of the wisdom of placing this enlarged electric light plant in the hands of men chosen as they are, on political and other issues, rather than no electric engineering knowledge and experience; besides our water problem is by no means settled; our bonding power is limited; we may need it all before an adequate supply of pure water is assured. We can live without lights, but we cannot live without water. Fifty thousand dollars expended in a light plant, \$35,000 or \$40,000 floating debt and water plant in urgent need of completion, does not look like a safe or a sound business proposition to the writer; besides you can buy your light for what it will cost to operate the plant after you have spent \$50,000 on it. Why not keep your \$50,000? Some members of the council say the women will carry the bond issue; I have misgivings on this subject. Any pet measure of the present city council is likely to undergo a microscopic examination by the women voters, the light company are here and have a plant already established and a business manager chosen for efficiency in this line; while the city on the other hand may choose members of the council who will have all to learn every four years. An ordinance properly drawn to safeguard the interests of the city can be passed by the people giving a franchise to the company for their several utilities; the streets can be lighted better than ever before; the cut in prices on gas and electricity, with the 3 per cent paid to the city on gross income will practically amount to getting the city's streets lighted for nothing; and a cut in prices on gas and electricity as clear gain; besides if the gross income increases by putting in a heating plant, the city also gets its 3 per cent on this increase gross income.

M. E. BOARD AIDS MISSIONS.

An appropriation of \$800,000 for home missions, \$165,000 for church extension and \$86,000 for expenses was made by the board of home missions and church extension of the Methodist Episcopal church.

During the year completed the church has collected \$1,051,100 for the work. According to the rule of the board it must be collected before expended. Samuel Shaw of Philadelphia, treasurer, reported an increase of available funds of \$13,850 over last year. The board has no debt. The appointment of Dr. Boyard to the secretaryship left vacant by the death of Dr. Forbes was ratified.

GREAT LABOR CONGRESS IN SEATTLE.

Large Number of Delegates From Canada and the United States Will Attend.

Seattle, Wash., Nov. 8.—The largest congress of labor leaders ever held on the Pacific coast, so far as the numbers represented and the interests involved are concerned, will begin in this city Monday with the opening of the annual convention of the American Federation of Labor. Nearly 2,000,000 organized workmen in the United States and Canada are sending their delegates—several hundred in number—to represent them.

The convention will have as its special guests Secretary of Labor William B. Wilson and Messrs. Gwynne and Greenall, two well known English labor leaders who have come over as fraternal delegates from the British Trades Union Congress. Secretary Wilson will deliver an address before the convention.

Among the well known labor leaders who will be in attendance, in addition to President Samuel Gompers and the other general officers of the federation, President John P. White of the United Mine Workers, former President John Mitchell of the same organization, President James Kirby of the United Brotherhood of Carpenters and Joiners, President A. P. Sovey of the International Brotherhood of Bookbinders, Secretary-Treasurer Hays of the International Typographical union, President Sam Griggs of the Journeymen's Stonecutters' association, and President Frank Ryan of the International Association of Bridge and Structural Iron Workers.

Questions of unusual importance are scheduled to come before the convention. The operation of the new workmen's compensation laws in the various states will be discussed. Moral and financial support probably will be extended to the striking miners in Colorado and Michigan. Plans to extinguish the Industrial Workers of the World as

a trades union movement will be considered. Questions affecting the standing of subordinate national unions will be taken up and some long standing fights between rival organizations will be discussed.

MADE IN JACKSONVILLE SHOW GIVES PROMISE OF SUCCESS

Secretary Fritchey Says Many Manufacturing Firms Are Taking An Interest.

Secretary Fritchey of the Chamber of Commerce believes that the "Made in Jacksonville Show" to be held in connection with the Farmers' Institute and the Poultry show will be an event of far more importance than the average citizen probably anticipates. The show will be given in the Worthington building on South Main street formerly occupied by Sample and Son. There are three spacious rooms available there and the arrangements are such that the exhibits can be well placed. Special lighting arrangements have been made and the space display will be sold at reasonable prices yet sufficient to cover all of the expenses which are necessary. A number of merchants have interested manufacturing concerns in the movement and it is certain that there will be a large number of displays well worth seeing. A special meeting of the 125 exhibitors is called for Monday night at the Chamber of Commerce rooms and at that time further plans and details will be made known. The idea of the show is largely to bring to the attention of the people how many good and useful things are made right here at home, a fact which is easy to overlook. It is the intention to have several days in connection with the show, one for children, one for business men and still another for women's clubs. There may be other special days as well.

TALLADEGA BATTLE

CENTENNIAL.
Talladega, Ala., Nov. 8.—The local patriotic and historical societies have made arrangements for an appropriate celebration tomorrow of the hundredth anniversary of the battle of Talladega, one of the most important conflicts of the Creek Indian war. The battle was between about 2,000 mounted Tennessee troops under Gen. Andrew Jackson and a force of 1,000 or more Indians led by Chief Weatherford.

The battle occurred in the early morning of Nov. 8, 1813, the Americans having been notified of the attack by a friendly Indian who had escaped from Fort Talladega, in the guise of a hog he having encased himself in a hog skin and run several miles to meet the troops of Gen. Jackson.

The troops entered Talladega from the north side of the city, the road still bearing the name of Jackson's Trace. The generals aiding Jackson were Coffee, Bowie and other noted Indian fighters. The principal streets of Talladega to this day bear the names of men in the conflict.

The Indians left more than 200 dead on the field, and it was supposed that they had as many more wounded. About a score of Americans, including three officers, were slain. By their defeat the Indians forever lost their supremacy in this section. After the battle they surrendered their rights to the incoming settlers, who founded the city of Talladega.

Irwin, eminent commander, is chairman, to make preliminary arrangements for the annual convention of the Grand Commandery, Knights Templar, which will be held in the Masonic temple in Springfield, September 1 and 2, 1914. Three thousand delegates and their wives are expected to attend the convocation, so that the total number of visitors to the city will probably reach 5,000.

10 CENT "CASCARETS"

IS YOUR LAXATIVE

Best Liver and Bowel Cleanser and Stomach Regulator in the World—Work While You Sleep.

Get a 10-cent box. Put aside just once—the Salts, Pills, Castor Oil or Purgative Waters which merely force a passageway through the bowels, but do not thoroughly cleanse, freshen and purify these drainage organs and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have headache, biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipated Bowels. Cascarets belong in every household. Children just love to take them—Adv.

ANNIVERSARY OF BOSTON FIRE.

Boston, Nov. 8.—To many old residents of Boston tomorrow will be a day of great significance, because it will be the 41st anniversary of the biggest fire in the city's history, when eight hundred buildings occupied by one thousand business concerns in the heart of the city were burned with a loss of about \$70,000,000 and causing the death of eleven people and injuries to many others.

The fire started at 7:20 o'clock on the evening of November 9, 1872, in the heart of the wholesale business section. The conflagration raged until the following afternoon. Fifty cities and towns of New England rushed men and apparatus to aid the Boston firemen, but the assistance was of little avail because the water supply failed at a critical moment. As a result of the fire loss twenty leading fire insurance companies went into bankruptcy.

FAVORITE BASE BURNERS

FOR WINTER COMFORT

It's all in the flues

"Finest Heating Stove in the World"

We Can Save You Hundreds of Dollars on Coal-Bills

We can do it with a Favorite Base Burner. The Favorite will save at least two tons of coal every year it is in use. Two tons of hard coal cost \$14.00. If properly taken care of, the Favorite will last at least 25 years. Total saving, \$350.00. Perfectly clear, isn't it, and more than that, perfectly true.

The Favorite has features that make it the most wonderful and economical heating stove in existence—and these features are all patented.

You may now have some other base burner in your home. Never

mind that. Come to us, and we will exchange it for you, allow you a good price and put in one of the Favorites. You may as well save the price of two tons of coal this winter as not, and the Favorite will do it for you. It is the only base burner that will. We will back all of these statements and claims with a personally signed guarantee—put it in black and white if you want it.

Place the Favorite in your home. Try it all winter if you want to. If you do not find it just what we have represented it to be, and what others have found it to be—bring it back. We will refund your money.

Ask any other dealer to put their stoves to such a test. They would not dare do it. We can, because we know what the Favorite will do, and we know what it has done in scores of homes right here in this vicinity. That is why we can make such a liberal offer and know positively the stove will make good.

Come and see us and we will talk it over. Remember, we are willing to let you have the use of the Favorite all winter for nothing if you do not find everything we have said about it to be true. We will make terms to suit—cash or easy payments.

COLLEGE OF MUSIC NOTES.

Definite word has just been received to the effect that the recital scheduled for November 17 by Mrs. Grace Wood Jess, soprano, and Miss Carol Robinson, pianist, cannot be given on the date announced. It is probable that the concert as planned will take place later in the year. Full announcement will be made as soon as possible.

The College of Music reference library has recently been increased by the addition of the five volumes of Naumann's History of Music. These books will prove a splendid addition to the large number of reference works already in the library.

A large double case, made especially for the library of ensemble music, has recently been placed in Director Swarthout's studio.

The recital by Corneliu Van Vliet, head cellist of the Minneapolis Symphony orchestra, and Miss Edwards, pianist of Chicago, took place on last Tuesday evening, a day later than originally planned. The program was of unusual high grade throughout, both performers proving themselves artists of exceptional character. Numerous encores were given, a proof of the great interest shown by the audience in the recital.

MISS EDWARDS WAS A GUEST AT THE HOME OF ASSOCIATE DIRECTOR DONALD SWARTHOUT DURING HER VISIT TO THE CITY.

The choral organization, heretofore known as the Glee club, has changed its name to The Madrigal club, and will be under the direction of Miss McKay, of the College of Music faculty. A fine program of chorus music is being prepared for a recital to be given later in the college year.

Mrs. Hartmann has been appointed by the student council as faculty advisor for the newly organized College Glee club. This will be a typical college organization from now on under student management, and it will confine its work to the lighter college songs and glees.

The student recital, given last Thursday afternoon, was unusually well attended, and the program, printed in an earlier issue of this paper, was generously applauded.

Miss Nicholson, of the College of Music faculty, visited her sister at Hedding college, Abingdon, Ill., over Sunday.

Director Swarthout played a violin solo at the service at Grace Methodist church last Sunday morning.

Among the Woodson visitors in the city yesterday were Robert Rawlings, George Craig, W. E. McCutley, William Mortimer, James Longman and Jerome Culp.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever drugstore or toilet counter, and just what will please you most will be after a few weeks' use when all over the scalp bms bms m you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any drugist or toilet counter, and just try it.—Adv.

WOMAN'S COLLEGE NOTES.

The first number of the Artists' course was a great success in every way and was a most excellent beginning for the strong course which the college is offering in the 1913 and 1914 attractions. Announcement will be made a little later for the exact date of the appearance of Mrs. Jess. This engagement will be filled some time later during the season.

On Wednesday morning Bishops Cranston and Moore attended the chapel service and both of them gave very interesting and helpful talks to the students.

Mrs. Harker, Miss Neville and Mrs. Metcalf will entertain a few guests Monday afternoon from 3 to 5 in honor of the dean, Miss Amy M. Mothershead.

The November issue of the Greetings came out promptly and is a very creditable number. The present board are proving very efficient.

President Harker has sent out a questionaire to sixty-five colleges in regard to students' attendance. The results of this will be tabulated and will be a great help in solving some college problems.

The library has just received two reading tables to accommodate the additional number of students that

SCHOOL MA'AMS REBUKED AS UNRULY CHILDREN.

While D. C. Ridgley, professor of geography in the Southern Illinois Normal school, was lecturing before the Teachers' Institute in Belleville on geography, he was compelled to stop and ask for order among the teachers attending the seventh and eighth grade sections of the institute. "You remind me of a room full of restless and unruly children and your own experience in the classroom should make these remarks unnecessary," said Prof. Ridgley. As he finished his rebuke, Prof. H. F. Thurston of East St. Louis, the presiding director, took a hand and said a few things that caused the teachers to sit up and take notice.

Henry Oakes of Bluffs was calling on friends in the city yesterday.

YOUTH IN OLD AGE

Possible With Proper Care

A few generations back a man at 50 was considered old, gray-bearded, and waiting for death. Note the change today; at a meeting of the Medico-legal society it was stated that a man of 50 ought to have forty good years ahead of him and, thus at ninety he is in the fulness of maturity.

What if you have seen sixty, or even a seventy—birthdays—temperate habits, fresh air and exercise, with a simple diet and a sufficient amount of sleep will guard your health.

If perchance, your circulation is poor, if you become run down—weak and no appetite—nothing in the world will tone up those tired back-sliding organs—enrich the blood and create strength so quickly as our delicious cod liver and iron tonic, Vinol.

We want every feeble, discouraged old person in this vicinity to try Vinol on our agreement to return their money if it fails to give satisfaction. Lee P. Allcott, Druggist, Jacksonville, Ill.

MAIL HOLIDAY PARCELS EARLY, BURLERSON'S PLEA.

New System Will Be Put to Severe Test During Christmas Season.

The postoffice department is out with the slogan, "Mail your holiday parcels early." This is the statement of the department.

"This is the first Christmas season the parcel post system has been in operation and Postmaster General Burleson is desirous that the handlings of the mails be expeditiously and economically managed with as little criticism as possible, and the public given the benefit of quick and accurate transportation and delivery, which will be done if patrons realize the advantage of early mailing of parcels. The postmaster general has the greatest confidence in the ability of his vast army of employees to cope successfully with the greatest rush of business that the postal service has ever experienced."

WORLD'S LATEST FINANCIAL AND MARKET NEWS

WEAKNESS IN NEW HAVEN STOCKS SOON SPREADS

IS FITTING SEQUEL TO HEAVY AND DULL CONDITIONS.

Situation seemed to be Augmented
by Renewed Apprehension Con-
cerning Mexico and Uncertainty
Regarding Outcome of Pending
Currency Legislation.

(By Associated Press)

New York, Nov. 8.—The weak-
ness of today's two hour session in
the stock market was a fitting se-
quel to the heavy and dull condi-
tions of the preceding days of the
week, augmented, as it seemed to
be, by renewed apprehension con-
cerning the Mexican situation and
uncertainty regarding the outcome
of pending currency legislation. The
local market manifested some steady-
ness at the opening, despite the ir-
regular range of our securities
abroad but weakness in New Haven
and American Telephone and Tele-
graph, both of which fell to low re-
cord prices, soon had its effect else-
where. The movement comprehended
a number of obscure specialties in
the industrial division and later
spread to the metal and railway
shares. As was naturally to be ex-
pected the decline derived no small
part of its impetus from short selling,
the bears evidently availing them-
selves of the opportunity to extend
their commitments. There was little
real support and final prices were
near the lowest level of the day.

COAL IN NOSE FIFTY-ONE YEARS.

Richard Nagel of Alton, a former
fireman on the Chicago & Alton rail-
road, Thursday removed from the top
of his nose a piece of coal which
had remained buried under the flesh
51 years. Nagel struck a chunk of
coal with a pick one day, the lump
flew to pieces and some it hit him
in the face. A wound was made on

Slaughter Sale of Pianos

The W.T. Brown Piano Co. Stock of Pianos are Going Fast. Why?

For nearly forty years Mr. Brown has been selling only high grade pianos. He has been the largest and most reliable piano man in Jacksonville. Has sold the right kind of pianos at the right price and treated the people square, and we are going to do the same way. Now, Mr. Brown has sold out his business, and we must dispose of all his stock. To sell it quickly we must cut the prices, and we have CUT THEM DEEP. That's why they are selling so fast.

Prices and Terms made to suit the convenience of every buyer. \$10.00 down and \$6.00 per month buys a Piano

Grand Pianos, Player Pianos, and many Upright Pianos, as low as \$59. Square Pianos and Organs \$5 and \$10

We invite you to see these exceptional bargains. It's your loss if you stay away. Our salesmen like to show you through, but you are not required to purchase unless you wish.

WRITERS OF LIFE AND DOINGS IN LAND OF BRAZIL

Rev. C. A. Carriel Sends Letter to Home Folks—Is Greatly Interested in the Work Which Called Him to South America.

The following letters are from Rev. A. C. Carriel, now engaged in missionary work in Brazil and the Journal is permitted to print them: Rua Maria Antonia, 33, Sao Paulo, Brazil.

Dear Mother: You will see that the machine has returned, and can imagine how pleased I am, not to speak of my friends. You will notice the accent on the "a" in "Sao." The machine was in the shop some weeks and now writes Portuguese as well as English.

By this time you are probably at "112." It does not seem possible that you are already there; but I suppose the voyage seemed long enough to you without any traveling companion of the family. I hope you had a good voyage. If you wrote a letter from Bahia, as I know you must have done, we did not receive it. I only mention this, so that you can write instructions again, that you may have written.

Another Sunday has passed and another week begun. Yesterday was review Sunday in the college Sunday school. I did not give a sermon, but told Folto's story, "Where Live is, God is." It was an inspiring sight to see the eager, listening children; and throughout the hall unusual silence reigned. With the exception of adopting a few details to Brazilian life, I told the story just as I remembered it. In the afternoon I went walking with some of the boys. We went out through the "Pacamburi" alley, and returned Avenida Higienopolis. In the evening Mr. Landes came for supper and then he and I went to Lapa for the evening service. We have had three services there now and are greatly encouraged. Already we have quite a nucleus of Christians there, which gives us the work. Among them is the "Tabellao," a sort of "notary public," the best known Brazilian perhaps in that suburb. He is having 5,000 invitations printed, and we are going to distribute them this week. He is a good man and a capable man. I am going to spend Sunday afternoon with him, visiting the people, and Sunday night he is going to preach. The hall is the former office of the elder, Sr. Salgado, and the family would not accept the rent in advance I offered. The man wanted to wait to see what the neighbors were going to say. Last night I had a talk with his wife, who was very much pleased with "our" religion. When I invited her to come in to see what was going on in her house, she said owing to a recent operation she could not dress up to go out; but that she always sat in her room, on the other side of the door from the pulpit and heard every word. She minded me that a week ago I had prayed for those "of this house,"

the neighborhood, etc. I hope she and her family will not only admire the light but walk in it.

We have a few sick boys in the college, some with measles, mumps and others with fever. Yesterday I visited them, and today Mary sent them some soup, tea and eggs. I imagine the food in the school is none too good, especially for a sick boy; and you can imagine how glad they were to see me. There are many things the chaplain could do if some things were different.

I have been greatly amused at Landes. When he first came here he wanted to know why we did not have Sunday night meetings, etc. It did not take him long to find out. Last night I was talking with him, and he said he thought practically nothing could be done this year. It has taken him only three weeks to come to my conclusions, but he is probably more certain of them, than if I had told him at the first. We have learned to like Landes and he is a frequent visitor.

We had a great treat last Saturday. Went out to the orphanage and took D. Felicissima. Several of the missionaries of the city were there, and we had an old fashioned prayer meeting, which enlightened the Lord as to how we felt about most everything and lightened all hearts considerably. After that the men took a long walk in the country and returned well prepared for one of Mrs. Cooper's good suppers. We had chicken sandwiches, home made bread, strawberries and cake, etc. The afternoon not only took us out of the city but out from all cares and ruts. There was music in the air coming home and color on everything.

One night last week I went down to visit Mr. Hillman, head of the largeships of the English railroad, who took Fred and me through his plant. His family are in England and he was glad of a visitor. We talked in the parlor, then went into the office and talked some more. I took him a book I had just received from the publishers. Prof. Munsterman's new book, "Psychology and Industrial Efficiency." He is a student, as well as a great administrator; and keeps up with the times. We talked of various things, and finally got on the subject of religion, where we stuck. He is not a believer with an orthodox label; but one of those groping souls, who comes to religion with a scientific cast of mind and a sincerity which would put many Wednesday night orators to shame. It is a rare experience to see the inside of such a man's mind, to learn his hopes and fears in beliefs. He lent me a book which I am greatly enjoying. "Man and His Universe," by Sir Oliver Lodge. Sir Oliver is a scientist, but he brings religion and science pretty close together and has hopes that they will be still better acquainted; for, he says, two truths cannot contradict each other, though the connection link is still unknown. I am getting many things from this book which I am going to give the students in chapel. It is a great ex-

perience to know such men. One thing I have learned about the ministry is this: A man comes to himself, when he most forgets himself, and receives in direct proportion as he gives.

Before I forget it I want to tell you that one of the boys who is sick asked about you recently, and said: "Eu tenho saudades della." "Saudades," as you know, is perhaps the strongest word in the Portuguese language and cannot be translated literally. He said he had a great longing to see you. You had not met him, but he had seen you, and something about your face or manner had preached a more eloquent sermon than your son ever will. I am somewhat amazed at the possibilities of influence in Mackenzie.

I hope you find the manuscript all right. You will notice that I could not decipher some of your hieroglyphics, but perhaps you can supply the few missing words. It was a great pleasure to typewrite it and recalled many happy and never to be forgotten days.

Well, I must close, drop a line to Harry and go to the postoffice. Lots of love to all, and all our love to you. C. A. Carriel.

*Notes on our way through Palestine. Extract from another letter.

Yesterday we went to Lapa and began services there, where we have a few believers. Many came out from the Igreja Unida (the little Presbyterian church in Sao Paulo). We had great singing. I shall probably go out once or twice a month and send others the other days. It will be a change and safety valve for me. In the evening we had a patriotic meeting in Mackenzie. Senhor Matthias spoke for an hour or more in eloquent Portuguese. (He is the pastor of Igreja Unida). He reviewed the history of Brazil, the causes leading up to the cry on Ypiranga hill, "Independence or death." In closing he paid a tribute to President Lane and other foreigners who co-operate in his work. Taking up the Bible which President Lane had given the college, he acknowledged as his own our faith and said: "I have hopes that this will be the faith of my country," meaning Brazil. No hymn, no prayer or scripture reading, just the address. I could not even get the committee to consent to the Protestant National hymn.

QUICK RELIEF

FOR RHEUMATISM
George W. Koon, Lawton, Mich., says: "Dr. Fitch's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist.—Adv.

CANDIDATES FOR GAME WARDEN.

Running May Be Part of Civil Service Test.

The Springfield Journal says: Possibilities that the future game and fish wardens of Illinois will have to be a printer, a good gunman, one who can, by hearing alone, distinguish among birds and who, on being asked, can tell instantly the official hunting seasons of the birds, are exceedingly bright.

The state civil service commission, which Friday announced the first examinations for deputy game and fish wardens and for district wardens, hinted at the qualifications which will enter into eligibility to serve the state in that capacity. The test for deputy warden will be held December 9, that for district warden two days later, December 11, both to be held in Springfield. Registration must be in by November 29. Already 185 have applied. It is probable there will be a great many more.

It is not improbable this state will borrow some of the means of testing out the applicants from a northern state or two. Up north, it is said, one of the tests for each candidate is a quarter of a mile sprint over rough ground. Other severe physical tests are given. The examinations will be perhaps the most practical ever given. Not only that, but candidates who prefer river work will have to display a knowledge of launch engines and other points of river life. Previous experience and employment, knowledge of the state game and fish law and physical attainments will be the chief points of grading. The deputy and district wardenships will pay \$100 and \$125 monthly, respectively, with whole time required. All present appointees to these positions will have to stand examinations.

NATURE AND A WOMAN'S WORK
have produced the grandest remedy for woman's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, more than thirty years ago, gave to womanhood a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.—Adv.

Mi-o-na is always sold on the money back if not benefit plan. Druggists everywhere.—Adv.

Notice to Poultry Raisers

We are now manufacturing, under state license, the best brand of chicken food on the market, known as "SUPREME CHICKEN FOOD." This food is far superior to any brand of chicken food on the market today. It is guaranteed under the Pure Food & Drugs Act, June 30, 1906, serial No. 47673. Guaranteed analysis as follows:

CRUDE FAT 6 to 8 per cent.
PROTEIN 22 to 24 per cent.
FIBRE 7 to 9 per cent.

WHAT IS "SUPREME CHICKEN FOOD?"

It is a combination food consisting of meat scrap, steamed bone grit and a small percentage of clam shell grit; all clean and in a uniform size, and can be fed to large and small fowls. "SUPREME CHICKEN FOOD" is guaranteed to make your hens lay. It is the only ideal food for fall and winter use. Put up in 50 and 100 pound bags.

Price per 50 pound bag \$1.50
Price per 100 pound bag \$3.00

We are also manufacturing, under state license, the best brand of hog food on the market, known as "SURE FATTEN HOG FOOD." It is far superior to any brand of hog food on the market today. It is guaranteed under the Pure Food and Drugs Act, June 30th, 1906, Serial No. 47673. Guaranteed analysis as follows:

CRUDE FAT 10 to 14 per cent.
CRUDE PROTEIN 52.50 to 60 per cent.
CRUDE FIBRE 1 to 3 per cent.
PHOSPHATE 10 to 12 per cent.

WHAT IS "SURE FATTEN HOG FOOD" TANKAGE?

It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economical and palatable form.

It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration.

It is the most economical source of digestible protein known, containing twice as much protein as all-meal and five times as much as middlings, shorts, shipstuffs, or alfalfa meal.

TANKAGE is recommended by all leading experiment stations. It is packed in one-hundred-pound burlap sacks, plainly marked "SURE FATTEN HOG FOOD." Analysis as above. It is the ideal feed to balance rations.

WHAT "SURE FATTEN HOG FOOD" TANKAGE DOES.

It develops bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby saving one-third of the feed bill, one-third of the labor, one-third of the risk, increasing profits one-third.

It grows better proportioned hogs, more meat, and more fat, hence market-topper hogs. "SURE FATTEN HOG FOOD" Tankage fed hogs ship well with small shrink. While in nowise a medicine, it so fortifies and strengthens the system against attacks of disease germs that "SURE FATTEN HOG FOOD" TANKAGE fed hogs are universally healthy. Manufactured by the

STUDENTS GIVE STREET FAIR

Carnival Under Auspices of Y. W. C. A. of Woman's College Proves Big Success.

One of the successful events of the Woman's college was the big street carnival given last night at the college, under the auspices of the Y. W. C. A., the cabinet of the organization consisting of ten members, who had charge.

The first part of the program was given over to moving pictures, several "take-offs" on the students and others connected with the school being put on the screen. The main feature of the entertainment was the minstrels, the girls being costumed in a fitting manner for the stunt. There were six on the platform: Misses Feril Hess, Irene Crum, Freda Fenton, Ruth Alexander, Mary Moss and Nina Slaten. They sang all sorts of popular songs interspersed with witty answers to questions. They were given a glad hand by the spectators.

The various attractions afforded great amusement and were well patronized. They consisted of the following: Shoot the Chutes, Bare-back Riding, Merry-go-round, High Dive, Art Gallery and Dutch Kitchen. The Dutch kitchen proved a popular place for here were found some "good eats" at a nominal price.

The students took this method of raising money to pay the expenses of their representatives who will attend the conference at Lake Geneva next year. In every way the fair was most successful.

MORE ROOM AT POSTOFFICE.

Additional Space Will be Used on West Side of Lobby.

For some time the authorities at the postoffice have felt the need of more room for the handling of the business and it has been decided to use a portion of the lobby for that purpose. The space used will be about 14 feet by 18 feet and the front will be in line with the hallway which leads to the postmaster's office. There will be a passage way also on the south of the room and a new doorway will be cut to the hallway from the revenue collector's office.

This new room will be used for the stamp and parcel post business. The general delivery window will be where the stamp window is now located. William McCullough has the contract for the work and it is the intention to start operations at once so that the extra room can be utilized for the Christmas rush of business.

SPOON BREAD.

Mrs. D. R. Francis of St. Louis has resurrected an old time southern recipe for "spoon bread." Try it:

Mix while hot one cup of boiled grits with one good tablespoon of butter. Beat separately yolks and whites of two eggs and when well beaten stir into cooled grits. Add slowly about half a pint of sweet milk and then a half cup of corn meal which has been sifted three times with a half teaspoon of baking powder. The batter should be as thick and thick as boiled custard. If too thick, add milk. Bake in a well greased hot baking dish or casserole.

TELLS WHY CHILDREN

FAIL IN SCHOOL WORK

Mr. Frank Allport Discusses Relation Between Health and Mental Efficiency in Lecture on School Hygiene.

The relation of bad health to backwardness and the means by which the welfare of the child may be assured was the theme Saturday evening of an interesting and logical address at the high school by Dr. Frank Allport of Chicago, eye, ear, nose and throat specialist, and consulting physician to the Chicago board of health. But three per cent of the backwardness in school children is due to real mental defect; adenoids, eye-strain, bad teeth, improper ventilation, poor surroundings for study and unhygienic surroundings cause the remainder of the trouble. "Education is the remedy. Educating the people is of more value than passing laws."

Dr. Allport came to the city under the auspices of the Woman's club and the Morgan County Medical society. His address was clearly written and excellently delivered and was closely followed by the audience. Following his discussion of "School Hygiene" he demonstrated a simple form of health examination, which may be performed by teachers with little trouble and expense. A discussion led by Supt. W. A. Gore, in which a number took part was the means of bringing several interesting points on the health of the school child. With Dr. Allport on the platform were Dr. Josephine Milligan, the representative of the Woman's club, and Dr. Ogram, the Medical Society representative, who presided. Before the lecture, music was furnished by the high school orchestra.

The Necessity of Health. Dr. Allport emphasized the necessity of right conditions of housing, lighting and ventilation and spoke of the desirability of periodical inspection of school rooms. The school room is the place in which the education of the race is to be accomplished. It should be hygienic, and the health of the child, the nation's biggest asset, should be the first consideration. Bad health is the cause of tremendous economic as well as moral and physical waste and to neglect the simple safeguards which every teacher can make use of is neither philosophical nor wise. Dr. Allport urged the co-operation of school authorities and the medical fraternity and decried the mingling of educational affairs with things political. He insisted on the necessity of medical inspection of schools and paid a tribute to the school nurse who labors that the care of teachers, the solicitude of parents and the diagnosis and treatment of physicians may bear fruit in the preservation of the most important factor in the welfare of a nation, the health of that nation's children.

The occasion was very happy and will long be remembered by both Mr. Grant and his friends.

The South Side circle met Friday with Mrs. R. S. Fanning of South Prairie street for a very pleasant and profitable meeting. Miss Harwood of the Woman's college sang a solo. The paper of the afternoon, "Religious Unrest in America," was presented by Mrs. H. L. Griswold. At the next meeting of the circle, with Mrs. W. W. Gilham, Mrs. E. C. Carpenter will read a paper on "Grand Opera."

The Joplin Daily Globe says: "Announcement of the marriage of Miss Anna E. Driffeld, No. 615 Jackson avenue, and Fred R. M. Clark of Denver, Col., has been received in Joplin. The marriage took place in Denver Thursday, Oct. 23. They will reside in Denver. Mrs. Clark is a sister of Mrs. Harry Stout, No. 708 Moffet avenue. She was prominent in Joplin music circles many years, having taught here for more than five years.

The bride is a former resident of Jacksonville, the family residing on Pine street. She had been in Denver for some time teaching music. She is a half sister of Mrs. C. C. Jeffries of this city and is a sister of Mrs. Harry Stout, who resides in Joplin. Mo., and Mrs. Fred Rausch of Springfield.

DR. CARRIEL MAY BE NAMED ON BOARD OF ADMINISTRATION

Rumor From Springfield Is That He Will Be Alienist To Fill Place Vacated by Dr. Norbury.

According to a well founded rumor from Springfield Saturday, Governor Dunne will appoint Dr. H. B. Carriel, alienist for the State Board of Administration succeeding Dr. F. P. Norbury, resigned. Dr. Carriel is said to be an applicant for the post and to have influential backing. The governor must appoint a republican to the position and Dr. Carriel can fill that qualification as well as having knowledge and experience to fit him for the work. Probably no physician in Illinois has had so long an experience in institutional life. It is understood that the governor will re-appoint Frank Whipp, fiscal agent for the board.

BASKETBALL CONTESTS.

Reliables Win From Arenzville High School and J. B. C. Loses to Virginia High.

The Christian church "Reliables" basketball team went to Arenzville Friday night where they met the high school team of that place and defeated them by a score of 16 to 9. The first half was 8 to 1 in favor of Arenzville. It was a closely contested game, the guarding of A. Smith being a feature. Chipchase, Weir, Wood and McElroy made the scores. The local team work was superior.

The following was the line-up: Clifford Wood, center; H. Smith and A. Smith, guards; Chipchase and Weir, Wood, forwards; Arenz, McElroy and Rexroat, forwards; Heiman, center; Reaugh and Prouditt, guards.

Officials—Referee, Davis; umpire, Roscoe Linder.

In a game marked by roughness and poor basket shooting the basketball team of Brown's Business college was defeated Friday night by the Virginia high school team, playing at Virginia. By a score of 52 to 14 the Cass county boys walked away from the J. B. C. delegation, handicapped by a small dirt floor and tired out from a long drive through mud.

December 12, the Virginia team plays in Jacksonville and the Business college boys expect to show the visitors a few things about the game when played on a real floor. The lineup: Virginia, Cooper, H; Lewis, H; Kuchner, C; Newell, G; Beard, R; J. B. C., Frye, H; Warren, R; Single, C; Butler, G; Fuller, R; Goals from field, Frye 3, Warren 2; Cooper 10; Fuller 1; Lewis 10; Kuchner 4; Newell, 2. Goals from foul, Frye 2. SHELBYVILLE LIGHTED BY SUCCESSFUL MUNICIPAL PLANT

One Thousand Street Lamps in City of Five Thousand Residents—Does Commercial Business Too.

Commissioner Brennan recently wrote to a friend of his at Shelbyville to get some data about the electric light plant there. The plant is one of the few in Illinois which does commercial lighting. The writer who is the sheriff of Shelby county, tells of conditions as follows:

Sherbyville, Ill., Nov. 7, 1913. Mr. J. F. Brennan, Jacksonville, Ill. Dear Sir and Friend: Referring to your recent letter, our stores and residences have the same rate on light, as follows: 9 cents for the first 100 k. w., eight cents on 100 to 200 k. w. and seven cents for all over that. We have approximately 1000 street lights that cost us less than forty cents per light from May 1st, 1912, to May 1st, 1913. You will readily see that with less than 5000 people we have the best lighted town in the state, for its size. A large part of the success of our plant is due to the efficient management of H. R. Brown our superintendent. He has grown up with the plant and thoroughly understands all departments. Mr. Brown will probably give you any data you desire about the plant.
